Trim Washington College Despite Absence Of Ives, Phillips

ve re SCORE TWICE BY AIR ROUTE ole in-

over MacClean - To - Kelly Nets Two Touchdowns; Beeler Tallies Third

> Taking full advantage of three scoring chances, Johns Hopkins made an impressive showing last Saturday in its opening game of the season to defeat Washington College, 21-0.

> Despite the mental upset caused by the last-minute losses of Boots Ives, end, and Otts Phillips, guard, the Jays outplayed the Shoremen in every department of the game.

> > Jays Recover Fumbles

The Black and Blue proved its alertness by recovering six Washington fumbles, two of which served as opportunities for Hopkins to gain touchdowns.

The backfield work of Don Kelly, Billy MacClean, Henny Beeler, Reub Pasarew, and Johnny Weeks Was the most encouraging feature of the early season tilt. Extraordinary punting and passing on the Part of MacClean, combined with the judgment and pass receiving of Kelly and the running of Beeler, gave Hopkins its advantage. In addition, the fine defensive work of Pasarew and Weeks in backing up the line was an aiding factor.

New Men Impress

Several new faces showed up in the Black and Blue line which held SIXTY PRESENT A the Shoremen satisfactorily, though not as smooth in performance as the backfield. Swindell and Speno broke in at the ends due to the absence of Ives, while McCubbin and Banjo Club And Hawaiian Minizek had lengthy trials at the

However, the most pleasing efforts on the line were given by Church Yearley and Charley Orth, veteran tackles, who time and again Were down under the Hopkins punts to get the Washington receiver in his tracks.

Score In First Quarter

The first Blue Jay touchdown came in the initial quarter. Hopkins recovered a Washington fumble on the visitor's 30-yard mark. After one play brought a penalty of 15 yards for clipping, Beeler gained 18 yards around left end which was followed by a pass from Beeler to MacClean to add 13 more. MacClean tossed a lateral to Kelly who skirted the end for an-(Continued on Page 3, Col. 1)

## The Week

Today-Lecture, "Will Democracy Endure?", by Sir Herbert L. Samuel, Schouler Lecturer, Latrobe 120, 5 p. m.

Wednesday—Organization meeting of Blue Jay Orchestra, Levering, 4 p. m.

THURSDAY—Meeting of Banjo Club and Hawaiian Troupe, Levering, 7.30 p. m.

Student Assembly, Latrobe 120, 11.30 a. m.

FRIDAY—Deadline for Black and Blue Jay copy.

Lost To Jay Eleven For Rest Of Season

PETE REYNOLDS

A distinct setback to the aspirations of this year's football team Reynolds, star backfield performer, next show. was badly injured during a practice session. He will be lost to the eleven for the entire season.

Reynolds was demonstrating a play, together with Boots Ives and Otts Phillips when the accident occurred. On attempting to get to his between the interests of the parties feet at the conclusion of the play, involved. In answer to a claim that he found himself unable to arise.

his kneecap locked and the cartelege make restitution for this and to be torn loose. It was necessary to perform an operation, at the conclusion of which his leg was put in tivities. a cast. He was forced to remain in the hospital for a week.

Reynolds was captain of the Homewood team last season, and was mentioned prominently in many of the All-Maryland selections.

Troupe Announce Date Of Rehearsals

A group of sixty men was pres ent at the initial meeting of the Johns Hopkins Glee Club last Thursday evening. This turnout was composed mostly of new men, it was stated.

Due to the fact that John M Holmes, business manager, and A H. Hopkins, junior manager, will not attend the University this year, arrangements will be made to fill these positions at a later date.

Stringed Instruments Thursday

Mr. Conrad Gebelein, director of the Banjo Club and Hawaiian Troupe, has announced that the first rehearsal of the group will be held next Thursday at 7.30 p. m. in Levering Hall.

There will be an organization meeting of the Blue Jay orchestra tomorrow afternoon at 4 p. m. in Levering Hall.

Players of all types of musical instruments are urged to attend the meetings of these groups.

### New Section Added To Biology 1C Lab

Because of the overcrowded conlitions which existed last year in and applying it especially to children. the laboratory sections of Biology IC, conducted by Dr. Rheinhart Cowles, another evening section has been added this year to accommodate students. The three sections meet in Gilman 110 on Monday and Tuesday, 7 to 10 p. m.; Wednesday and Thursday, 1 to 4 day, 7 to 10 p. m.

## BARNSTORMER-BAND I. .N A. CONVENTION RIFT IS APPARENT TO DRAW RECORD AT S. A. C. MEETING REPRESENTATION

fuses Band Use Of Barn For Rehearsals

CLAIMS DAMAGE HAS BEEN DONE

Matter Can Be Definitely Settled

First evidences of a rift in the 'cooperation" program of the Student Activities Council became apparent over the week-end when heated discussion arose as to whether or not the Band should be allowed to practice in the Barn. The Barnstormer authorities, it was learned, forbade the Band the use of their building, claiming that there was too much interference with the was suffered last week when Pete preparations for production of their

In an appeal to the Council, Joseph Schenthal, student leader of the Band, cited the necessity of his group's using the Barn, and stated that a schedule might be agreed upon which would prevent conflict damage had been done to the prop-A hurried investigation revealed erties of the 'Stormers he offered to financially responsible for future expense brought on by the Band's ac-

Council Powerless

Discussion of the affair brought forth the question as to the right of the Barnstormers to restrict the use of their building. Charles Squire, president of the organization, explained that this prerogative was rightfully exercised, having been authorized by S. Page Nelson, the treasurer of the University, in a recent letter to President Ames.

Since the Council had no power to act in the matter, as T. S. Stern, its previous ruling, the Band was Ritchie, of Maryland. allowed to use the building on Fri- Edgar Blumstein, business manof organization and rehearsal.

Engineering Dean Wins Two Coveted Awards

Dr. John B. Whitehead

Dr. John B. Whitehead, Dean of the School of Engineering, was the recipient of two coveted honors bestowed upon him by the American Institute of Electric Engineers, it was announced yesterday by the of-

The national prize for the best paper in the field of theory and research presented at the various meetings of the institute during 1932 was awarded to the Hopkins professor of engineering.

The title of the winning paper was "Predetermination of the A-C Characteristics of Dielectrics."

Dr. Whitehead was elected to the presidency of the institute for the coming year. In 1932 he was awarded the Elliott Cresson Gold Medal of the Franklin Institute for mous through his work as Chairman research work in electricity.

# CAMPUS ACTIVITI

Student Representatives To Speak For Respective Groups Thursday

Lower classmen will be instructed in the history and workings of non-athletic activities at the Johns Hopkins at the assembly to be held this Thursday, October 12. Student representatives are to outline the purposes and achievements of their respective groups in an effort to attract new members.

Norman Heaney, editor-in-chief of THE NEWS-LETTER and president of the Musical Club, will represent these two organizations. Robert McKericher, in his capacity as business manager, is to speak for the Black and Blue Jay, campus magazine. The Hullabaloo will have as its speaker Theodore Stern, editor-in-chief.

Other Interesting Assemblies

Other addresses will be made by Coach William Banks, of the Barnstormers; Thomas Russell, the Cotillion Board; John G. Weeks, the Y. M. C. A.; Charles Squire, debating; and Joseph E. Schenthal,

The assembly to be held on the following Thursday, October 19, will be turned over to the coaches and managers of the various athletic teams in order to acquaint the new students with the athletic side of University life.

Representatives of the football cross-country, basketball, lacrosse, track and tennis teams are expected to address the assembly.

Representatives of the Y. M. C. A. will conduct the following asgram will be announced later.

British Statesman To Speak "Will On Subject, Democracy Endure?"

HAS HELD MANY PROMINENT POSTS

Schouler Guest Is Making Lecture Tour Of United States

"Will Democracy Endure?" will be the topic of Sir Herbert Louis Samuel's address to be delivered in Latrobe Hall at 5 p. m. today.

The eminent English statesman, who is prominent among authorities on international peace and has for long been associated with British governmental affairs, has been invited to the Hopkins to give the annual address under the James Schouler Lectureship.

During 1931-1932 he was Secretary of State for Home Affairs, a position of high importance in the British Government.

Varied Career

Early in his career Sir Samuel acted as Parliamentary Under-Secretary in the Home Department. Then followed his nomination to Chancellor of the Duchy of Lancaster with a seat in the Cabinet. His success continued and in 1914-15 he became Postmaster-General and president of the Local Government Board.

Internationally, he has become faof Select Committees of the House of Commons on National Expenditure from 1917 to 1918, and as High Commissioner of Palestine from 1920 to 1925. His work in the Zionist movement is well known for its practical views. He has been President of the Royal Statistical Society as well as President of the British Institute of Philosophy. From 1927 to 1929 he headed the famous Liberal Party Organiza-

Author Of Many Books

Sir Samuel has written several publications. Among these are his Liberalism, Its Principles and Proposals", "The Man and Liberty" and "Philosophy and the Ordinary Man", which is his latest.

Under the Carnegie Endowment for International Peace he was invited on a lecture tour of the United States. His versatility and leadership in so many fields have made him an extremely interesting lec-

Beginning Friday, Dr. Raymond W. Chambers, Quain Professor of English and Literature at the University College, London, will deliver a series of lectures, sponsored by the Percy Turnbull Memorial, on the "Continuity of English Poetry from the Beginnings to Tudor

T. S. Eliot, editor of The Criterion, delivered the 1932 Turnbull Lecture on the "Metaphysical Poets".

### NOTICE!

All freshmen, sophomores, and new students must report for physical examination at the south loft, Gilman, 4th floor. Dr. Abercrombie will be at his office Monday, Tuesday, Wednesday, and Thursday between 3 and 5 p. m. No appointments are necessary.

The physical examinations must be taken before the end of the month. Upperclassmen who are participating in athletics are requested to be examined.

Published semi-weekly from October to June, except during examination and college holiday periods by undergraduates of the Johns Hopkins University.

Business communications should be addressed to the Business Man-ager, Johns Hopkins University. All articles and communications per-taining to the editorial department should be forwarded to the Editor-in-Chief, Johns Hopkins University.

A Very Polite Query

WE HEAR: that there will be no training table for the football team this year and that there is not enough money to help several athletes, destitute, but of good scholastic standing, to return to the University; also, that during a period of about four years, ending in June, 1932, the athletic department made a profit of, roughly speaking, twenty thousand dollars.

WE SEE: virtually no new equipment, with the exception of the necessary accessories, being given to the football team from the 1930 season until this time; also, thousands of people paying hard cash to see the football and lacrosse squads, in particular, perform. They don't get in on comps, either, because Mr. Iddins doesn't know the meaning of the word.

WE PAY: annually, at least 750 of us, ten dollars each to the support of athletics—total, \$7,500. We can't add any part of our tuition fee to that because the athletic department operates on its own, and since it is famed abroad that the University has no money, it's not likely that the department gets any

SO WE ASK: respectfully, where has our money gone? We know definitely of \$7,500 a year which goes into the insatiable maw of the department and of nobody-knows-how-much else in gate receipts. Yet all we get in exchange is the piteous tale, "No money" This may all have gone in unquestionably legitimate channels, and we assert positively that we mean to insinuate nothing else. But after all, it didn't just go up in smoke, and we crave at least the sensory satisfaction of seeing in black and white the explanation of why all that money won't support athletics on the modest scale in which the Hopkins engages.

"Bury The Corpse"

Once again Fate has played excellently into our hands. This time it favors us with a superb case in point for the criticism which we made of the Student Activities Council in our last issue.

It may be recalled that we pointed out the ineffectiveness and consequent uselessness of that body, around which an aura of traditional unassailability has hovered. Powerless to act in anything vital and prey to every minor shifting of political whims, it has long become a dead and cumbersome organ.

Last Friday at its first meeting of the year it was faced with a problem—that of the Band-Barnstormer row-about which, it was admitted by the S. A. C. president himself, there was no use in the Council's coming to any decision whatsoever because there was no possible means of enforcing the decision without a special dispensation from the administration. The period of the meeting was wasted in vain see-sawing argument which uncovered a total of no new phases of the question.

Our slant is not that the purposes and duties of the Council are unimportant but that the Council itself is a most inefficient organ for performing the functions. If the administration or the Student Council is to eventually render the decisions in matters of importance it is eminently more sensible to merely appoint an activities man to be Commissioner of Activities, if you will, who would have the duty of investigating and supervising all inter-activity relationships and difficulties and of making a thorough re-

port of his findings to the proper agency.

The Council of last year realized the practicalness of this plan when it appointed Milton Smith to investigate the budgetary entanglements, supported with the advice of several campus leaders, and to make a report. This report was subsequently passed upon in almost its entire original form and was by far the only significant move of the Council during the whole

The Opener

Urged on by what were at best half-hearted cheers the Jay squad contrived to knock down and drag out Washington College last Saturday. The lack of enthusiasm among the rooters, win or lose, moves us to comment upon the extraordinary contrast which the spirit of Pete Reynolds, injured halfback, affords.

In the season of 1931 he sustained such serious injury to a vertebrae that it was feared that he would not recover. Time healed him, however, and he appeared on the Campus during the following year with his head and neck in a steel cast. As soon as he was released from this encumbrance he reported for football again in 1932 and for lacrosse as well.

Notwithstanding the natural fear of bodily shock which a man must experience after an injury, Pete became easily the outstanding player again, his speed and shifting making him one of the best defense stickmen and broken-field runners in these parts.

And now he's out again, this time with a locked knee-cap which will keep him out all season. It's all attributable to the fact that when he is playing or practising he is doing it with all his might. Foolish. you may say, to run so much risk. But there's something about the spirit of the man which makes us wonder if it will not, in the long run, pay better dividends than the cool, reserved, and even supercilious attitude which so many of us have assumed toward the efforts of the teams.

It may enlighten us to recall that the Hopkins is one of the half-dozen or so universities in the country which offer no scholarships to athletes, no matter how valuable they may be. Whatever sort of teams we do have, then, arises directly from the interest and spirit of the team members. Considering that for 30 or more years we have had the best lacrosse team in the world it seems that the student body owes the athletes a little support.

## Intercollegiate News

At the University of Washington the professors of English and History have joined in issuing the following advice to students: "It is better to know but when in doubt, bluff."

Dr. George B. Cutten, president of Colgate University, advises young men entering college, "Never let studies interfere with your education.'

0-0-0 From the Smith College Weekly we learn that-Success consists not so much in sitting up nights as being awake in the daytime.

According to the Pennsylvanian, Denison University statistics show that "walking dates" are 62 per cent more popular than any other kind; church dates are on the wane, while movie dates are considered out of the question.

0-0-0 The following is an extract from the Vassar Mis-"CONSIDER THE PHI BETES"

They charm not, neither do they sin, The typewriter clicks all night); They'd rather drink tomato juice than gin (The next morning they're a sight).

In order to combat the depression male students of the University of Chicago have organized and enroll all males in their depression club who blackball co-eds known to consume more than one "coke" or two cigarettes in one evening.

0-0-0

Among the 86 unemployed teachers who applied for work at \$15 a week at the temporary relief administration in New York State was a professor whose name is listed in "Who's Who". Something for students to look forward to.

Since so many marriages at the University of Utah have resulted from the fact that men and women students study in close proximity at the library, the president of the university has ruled that one-half of the library is to be occupied by men and the women must confine themselves to the other half .- Mills College Weekly.

### Nobody's Business

By WILLIAM H. DEWOLFF

We dropped in to see Dr. Miles the other day, and after a few pleasant remarks, asked if he would grant us an interview. He graciously consented, but only after a number of modest denials that what he would have to say would not interest the students.

However, he told us that his summer had been uneventful but most interesting to him, for he had read extensively, as is his wont.

He seemed very pleased with his Freshman Survey course. He said, "They seem attentive, and I hope some of them will become interested in English

He told us that there were decided changes in English undergraduate instruction. First of all, the English courses are part of the Language and Literature Group, and fit in with two other languages, in most cases, French and German. This enables a man to obtain a more satisfactory grasp on English and the allied subjects. Then, too, the larger number of courses offered enables a man to study all the important periods in his four years.

"These changes are designed to vitalize English, touching on the various aspects of study and of life, and which appeal to a limited number of students particularly, and to all students in general."

And with this touch of Macaulay-like rhetoric,

he genially brought the interview to a close.

To the Freshmen:

Be not dismayed at the expensive procedure at the Book Store. It has been going on for years and years, and you'll get used to forking over such sums every October.

Fleming has informed his classmates that henceforth and forevermore he is to be addressed as the Duke of Abbotsfordshire, which, he adds, "ought to be easy enough for everybody to remember." So be

We understand that the Hon. C. Herbert Mc-Mahon of the Senior Class is most impressed with the "lines" of his horseless carriage. A worthy vehicle, that, but its "lines" are merely the wrinkles of old age, methinks.

Just when life is running along smoothly, in breezes Friedberg! His idea of an inter-fraternity bowling tournament does sound good, even though it is just a little better than the inevitable bridge.

And no MORE wise-cracks about the title of this yer column, if you please.

The Demagogue's Plight

a Democratic victory possible demand a virile and resolute public in a Republic." policy, so is an active administration, from the very nature of the constitutional relations, incompatition by the legislative in the execution of the majority will might be, so far as any governmental action could be, impossible. The whole extraordinary effectiveness in prepurpose of the Constitution, as Hamilton and Madison described doing anything beyond what it was it, was to provide "a government compelled to do by the importunate endowed with certain positive powers, but so constructed as to break of measures which the legislative the force of majority rule and prevent the invasions of the property and the judiciary not declare unrights of the minorities". Once the constitutional was appropriately central authority had been given small. The government as a whole the power to erect tariffs, to grant was constantly jammed by the dissubsidies, etc., the owners of per- cord among its parts and little could sonalty, whom the members of the slip through the murky jungle exconvention largely represented, as cept the insistent and well-manipopposed to the agrarian interests, ulated demands of organized interwanted to restrict its functioning as ests. Every law bore the marks of alist to the exposition of the argu- of a process by which an interested uniformly victims. ment that "every institution calculated to restrain the excess of law- themselves, framed a request in melmaking, and to keep things in the lifluous language, wheedled sufficient same state as they happen to be at legislators to see it by them, and any given period, (is) more likely finally convinced the executive that to do good than harm." Property he had nothing to lose, and the supowners, as Beard adds, are able to port of themselves to gain by signtake care of themselves, and "they ing it. The process was governhave as much to fear from positive ment by stealth. Legislation was governmental action as from their hurried through unless some one, inability to secure advanageous legislation."

other in their proper places . . . It is of great importance in a republic not only to guard the society against the oppression of its rulers, but to guard one part of the Society against the oppression of the other part. Different interests necessarily exist in different classes of citizens. If a majority be united by a common interest, the rights of the minority will be insecure."

For this reason the initiative in public policy was to be divided among the House of Representatives the Senate, and the President, each of which were to be elected in a different way and thus by a different electorate," so that there would be little likelihood of a common interest to cement these different branches in a predilection for any particular policy". And to crown the system of checks there was to be the judiciary which Hamilton

ority

At the present time, prospects for Matter Of the 1933-34 swimming season ap-Pear very bright. The natators lost only one meet last year, and with the entire team is returning.

No definite schedule has yet been arranged, but meets have been scheduled with George Washington and William and Mary, while engagements with Harvard, Swarthmore and Delaware are pending. Gettysburg, formerly a regular op-Ponent, has dropped swimming.

Negotiations are being made for the use of the Baltimore City College pool, since it is in a more convenient location than the Y. M. C. A., where practice was formerly held. No official date has been set for the first practice. According to Captain Edward Sadtler, it will Probably be held early in December.

### What Price Football?

THE unfortunate injury sustained by Pete Reynolds in practice last week has once again brought to the fore those who totally depreciate the value of the institution of of last year's crack team, has not purpose in attending Hopkins, a tain starters, along with Emmart has been temporarily checkmated by a force which will have absolutely no bearing on his future.

THEIR argument in this particular case is strengthened because of the fact that Pete's disability has necessitated his remaining in the hospital for a period of one week, and consequently he has been unable to continue his studies during that time. Also the location of the injury, the ever dangerous kneecap, has played into the hands of this

## Abolition Of Sport

THEY do not blame Reynolds any more than they censure Hopkins. What they are harping upon is the complete, nation-wide abolition of intercollegiate football. "It's all very simple", they say. "Merely abolish football from the colleges, and there will be no football players. Remove the cause, and the results will not occur."

BUT there are one or two matters that posibly this august body has had the misfortune to overlook. (Or perhaps, and this is a remote possibility, their vision is great enough that the observance of these facts has created somewhere within them a latent suspicion that there might be two sides to this question.)

IT might be mentioned that football, more than any other sport, is one of the few instruments which the present day college has at its command to foster cooperation and school spirit. It furnishes the feeling of loyalty and pride among the student body, and at the same time keeps both rooters and team striving for the same objective. This vital spark might very easily become lost in the individualistic, defensive at-

### Gate Receipts

AND then again, perhaps the colthe exception of Reid and Hanhart, leges, as rumor has it, do receive some measure of financial assistance from the gate receipts. Certainly the authorities themselves would be far from the first to indorse the abolition of the gridiron sport.

> NO, it seems that football is firmly entrenched as a part of college life, and will remain so for a good time to come.

### 0-0

Off-Tackle Slants: What with Van Orman and Yearley teaming on the same side of the line, Hopkins no longer has a weak and a strong side, but a tall and short side . . . A repetition of the Jay-Lehigh game of last season, won by Hopkins, 12-6, seems in store this Saurday . . . The Black and Blue seems fortunate to have resumed football relations with Loyola in a year when the Greyhounds are below par. Last year's team would

### Harriers Working Out Daily; Furst Absent From Team

In preparation for their opening meet with Dickinson, which will be held in the latter part of the month, the cross-country team has been conducting daily practices at Homewood.

Due to financial difficulties, Sam Furst, who, along with King and Captain Holtzman, were the stars football as an optional part of a col- returned to college. King, Holtzlege career. They now make haste man, and Captain Lewis, veterans to point out that Reynolds's real from last year's team, loom as cerdesire to continue scholastic work, and Onderdonk from last year's junior varsity.

### Football Schedule Calls For Four More Games At Homewood

Four of the seven games remaining on the Jay football schedule will be played at Homewood. Lehigh, Haverford and Penn State are to be encountered away.

The schedule:

October 14 — Lehigh University, away

October 21—Loyola College home

October 28—Haverford, away November 4 — Swarthmore, home

November 11—Penn State, away November 18—Maryland, home November 30-St. John's, home

## RUSSIAN PSYCHIATRY AROUSES DR. MEYER

Finds Russian Family Is Wrongly Represented In The U.S.

(Continued from Page 1, Col. 4) 8 divisions for children and 4 for psychiatry—each provided with the necessary laboratories. The academy has the task of organizing all psychiatric and psychological work throughout the Ukraine. It undertakes to give a full medical course for those majoring in the field, he explained, adding that each man receives a reasonable salary while he is a student and a somewhat higher one while he is doing graduate work with the intention of becoming a professor. Besides this, all physicians in the country get 4 to 6 months graduate re-education every 4 years with pay.

Dr. Meyer said he visited Odessa which is a great center of sanitaria. "And there was not the obsession that all laboratories have to be centralized; each division head is free to do research along any line he judges of value."

Generalizing, Dr. Meyer thought that a great deal of the attitude toward work, health, and crime was wholesome and well taken care of by the widespread indoctrinations of the people and the government. It has been clearly impressed upon the minds of the masses that the health of each is important to the welfare of all. "One gets an interesting experience" were the psychiatrist's concluding words as he affirmed his own occupation with "what one can do when one knows one's purpose."

Bernard G. Wobbeking, senior in the Johns Hopkins School of Engineering, was awarded the scholarship donated annually by the than October 14, will result in a fine American Gas Association. The award, for which only engineering students in the senior year are eligible, provides for tuition.

A candidate for the presidency of the Student Council last year, Wobbeking has been affiliated with the Y. M. C. A. since his first year at the Hopkins.

### Dr. Bamberger Speaks At P. T. A. Gathering

Dr. Florence E. Bamberger, professor of education at the Johns Hopkins University, was the speaker at a meeting of the Parent-Teacher Association of School No. 65. The subject of her address was "Nation's Strength."

### Written Exams To Be Required Of Candidates In French and German

According to the regulations of the Board of University Studies of the Faculty of Philosophy, candidates who offer French and German as the two modern foreign languages required for higher degrees must pass written examinations in these subjects.

Three examinations are held during the year, in October, February, and May. The examinations will be held in October as follows: French-Monday, October 16, at

9.30 a. m. to 10.30 a. m., Main Library, Gilman Hall.

German-Wednesday, October 18, Library, Gilman Hall.

All candidates are required to register in the Registrar's Office I am a bit bewildered. one week before the dates of the examinations.

These regulations apply only to French and German. Candidates who are permitted by their departments and the Board of University Studies to offer another modern foreign language must arrange with the Registrar's Office for a special examination.

## Frosh "Relief" Work Started

Benevolent Upperclassmen Solicit New Activities Entrants

The freshman's plight has once more excited the pity of the upperclassmen—this time he's to be helped in overcoming his timidity about entering the various activities, members of the Student Council said

Acting upon the suggestion of 'Chick" Merson, Junior class representative on the council, it has been decided to give each entering student a list of the activities, athletic and non-athletic, of which he may check off those in which he has any particular interest. Activities

-due to this Vacumatic Filler Pen Invention Holds 102% more Ink-Shows when to refill?

Parker's Revolutionary Pen— Laminated Pearl, ultra-smart and exclusive

PARKER now presents an utterly revolutionary pen—invented by a scientist at the University of Wisconsin. A pen that gets rid of the customary rubber ink sac,—but more, the first sacless pen to abolish piston pumps and valves. It contains no device that will render it useless later. It holds 102% more ink, with no increase in size!

And its ultra-smart and exclusive barrel-fully patented—is built up ring upon ring of laminated Pearl and Jet, as shimmering as velvet, or Pearl and transparent Amber that looks like jet till held to the light. Then you can see the quantity of ink within—see when to refill. This eliminates running out of ink at some critical moment during lectures or exams.

This "miracle pen" obsoletes all other types. It is guaranteed mechanically perfect. Go to any nearby counter. Try it today. The Parker Pen Co., Janesville, Wisconsin. VACUMATIC FILLER
