

Gilman Steps Site Of Yule Glee Concert

YMCA To Give Free Dance

The traditional Christmas step-sing will be presented by the Hopkins Glee Club, in conjunction with the YMCA, on the steps of Gilman Hall, 7:30 p.m., Thursday, December 17, Bob Lang, Glee Club president announced this week.

Following the step-sing, the Y will give an admission-free dance in Levering Hall. Free refreshments, games, and prizes will be featured, in addition to dancing to the music of the Blue Jay band. Dancing will be in the cafeteria, through the cooperation of Russell C. Kirpatrick, Director of Food Services.

Before the step-sing, a thirteen piece brass choir from the Hopkins band will play from the balcony of the Gilman tower. The group will present the same program of Christmas carols that they plan to present from the steps of the University Baptist Church on the evening of December 15.

The Glee Club will open the step-sing with five acapella selections. An added feature will be a solo by Lynn Wickwire, Dr. Wickwire's young son. The Hopkins Orchestra will provide accompaniment for the Glee Club.

Following these selections the audience will join with the Glee Club in singing the traditional Christmas carols.

Open Rushing Nets 28 Men

Open rushing began on November 8; since that date 28 students pledged fraternities.

Eleven of the twelve IFB member fraternities pledged boys during the open rushing period. Open rushing begins, each year, after the period of silence which occurs on Pledge Sunday. As opposed to formal rushing, open rushing has no rules and a fraternity may pledge a boy at any time.

Jay Hoopsters Open On Homewood Court In Tuesday Contest

His squad pared to 12 men, Coach Bob Bilgrav sends his court squad into its third consecutive road game, tomorrow night, at Swarthmore College. The Hopkins five makes its debut on the Homewood gym floor next Wednesday night when it encounters Gettysburg College.

In Gettysburg the Jays will be up against one of their toughest opponents of the season. The Bullets whipped Hopkins 97 to 59 last year and the G-burg squad has all but one of its starters from last year returning. Also, the visitors are coming to Baltimore with a team of much added height over their '52 aggregation. However, with three games under its belt the Hopkins quintet is expected to provide the opposition with a great deal of trouble.

Lose To Delaware

Last Tuesday night the Jays opened their season by dropping a 51 to 39 decision at Newark, Delaware to the University of Delaware Blue Hens. Hopkins scored the first basket, but the Blue Hens came right back with a barrage which finally gave them an 18 to 9 lead at the end of the first period. The winners continued to pile it on as they stretched their

(Continued on Page 6)

IFB Fines Fraternity

A fraternity has been found guilty of violating the gentlemanly conduct clause of the IFB constitution, Dick Cohn, IFB president, announced.

Cohn said that the conviction resulted in the fraternity being fined fifty dollars. The fine was suspended and the fraternity was placed on probation. If they are brought up and convicted on the same charge again this year, the Board has the right to collect one hundred dollars in fines, Cohn added.

The clause of the constitution that was violated reads as follows: "The IFB shall be empowered to take punitive action against any member fraternity which acts in a manner detrimental to the welfare of the fraternity system at Johns Hopkins University. This includes initiation practices and social activities."

Alpha Delta Phi Wins Y Membership Drive

Alpha Delta Phi won the YMCA's fraternity membership drive, Ed Freeman, drive chairman, announced this week.

The winning fraternity has a 100% membership. Alpha Tau Omega was second, also with 100%. Freeman said that Alpha Delta Phi was awarded first place because they reached the top first.

The awards will be presented at the IFB formal tonight. Alpha Delta Phi will receive an engraved chafing dish with a statue of victory on it. Alpha Tau Omega will receive an engraved plaque. Each fraternity will keep its award for one year.

"On the whole, participation by the fraternities was good," Freeman said.

Violators Get Parking Slips

By SANFORD COHEN
News Editor

Tickets, which have been issued for violation of the campus parking rules, have been processed at the Plant Manager's office and notices are being sent to the offenders, disclosed Wendell Smith, Chairman of the Student Council Traffic Commission.

Smith explained that there is a permanent record of all tickets given out up to this date. He further explained that each offender could expect a notice to pay his fine in the mail in the next few days.

Smith urged all students to either pay their fines or appeal the case as soon as possible. The Commission is trying to avoid a backlogging of tickets. The Student Council Office is the meeting place of the Commission. It meets three times a week; Tuesday at 12 and Friday at 10 and 12.

Regarding cars parked on the roads, Smith said that it was not only against the rules but it is also a safety hazard. He explained by saying, "the fire engines, that answered the alarm turned in after the explosion in Remsen, had trouble getting to that building because of cars parked on the road."

Smith said that the lot at the South end of the campus has just been lined so as to permit more cars to park there. He also said that there is a new lot being

(Continued on Page 2)

As a service to our readers the News-Letter has devoted its inside pages to a Christmas shopping guide.

Cochrane, Ruland Seek To Restore Varsity Wrestling

The combined efforts of coach Mickey Cochrane and captain Lou Ruland are leading the fight for the return of intercollegiate wrestling to this campus and according to both, "the situation is looking better all the time."

Cochrane is very encouraged over the progress thus far and is taking "an optimistic approach" to the whole matter. He is hoping to have a turnout large enough to call for the forming of both freshman and varsity formal squads. As of last Friday the team membership stood at 21 and was growing every day. An intramural wrestling tourney will be held on January 13 and 15, which is also expected to help swell the numbers of the team.

In past years Hopkins grappling squads have compiled outstanding teams in their class and it is the hope of Cochrane to revive the sport to those heights in the near future. Out of ten Mason-Dixon tourneys in the history of the conference, Jay teams have emerged champions six times.

— Notice —

This is the last issue of the News-Letter before Christmas. God and the business manager willing, our next attempt will appear on or about January 8.

Thirty-Five To Enter Smoke-Filled Room

By ARTHUR Z. SILVER

Thirty-five students, representing twelve campus organizations have already announced intentions of entering the Hopkins News-Letter Pipe Smoking Contest, in the Sherwood Room of Levering Hall, Tuesday at 4 p.m., Glen K. Parker, Contest Chairman announced this week.

Prizes of pipes and tobacco will be awarded to Hopkins students who manage to keep their tobacco lighted longer than their competitors. Rules of the contest, complying with national and international rules used at Ivy League schools and at the University of Virginia, are that each man is issued 3.3 grams of tobacco and two wooden kitchen matches. Pipes must be supplied by the contestants, and may be of any shape, size, or design.

Tobacco Donated

Tobacco for the contest is Wallerstein's Personal Mixture, donated by Wallerstein's Tobacco Shop, 903 West North Avenue. The tobacco will be furnished at the contest.

Judges for the contest are Dr. James C. McLaren, Associate Professor of Romance Languages, Mr. Louis D. Rubin, Jr., Instructor in the Writing Seminars, and Mr. Osmar P. Steinwald, Director of Alumni Relations and Director of Student Music.

All Hopkins students are eligible for the contest. While some entries have been received in advance, the smoker need only show up next Tuesday to enter.

The list of entries to date includes: Sandy Cohen, Ed Gold-

(Continued on Page 2)

Grad Students To Hold Ball

The Graduate Student Association will present its annual dance, to be called the "Jingle Jump," from 9:00 until 1:00 tomorrow night at the R.O.T.C. Hall. Admission is not restricted to grad students and is open to all Hopkins men and their dates.

Tickets are priced at \$1.20 per couple including tax and may be obtained either at the Y.M.C.A. office or at the door.

"Cabaret"

The dance will be "cabaret style" and "strictly informal" high fidelity music will be featured for the evening.

Graduate Students' President George Bentley is hoping for a big turnout at the Association's first dance of the school year.

DSRC To Present Dance For Dorm Residents Only

An informal dance will be given by the dormitory students January 9, from 9 to 1, Jim Phinney, dormitory social director, announced this week.

A decorative theme will be the feature of the dance. There will also be entertainment and refreshments. Details have not yet been worked out. Attendance at the dance will be limited to dormitory students. Phinney also said that plans are being made for a semi-formal dance in the spring.

Remsen Fire Damage Low

Amateur firefighters' quick work in last week's Remsen Hall fire confined the damage to within approximately an eight-foot radius, according to Dr. Alsoph H. Corwin, Professor of Chemistry.

"The Fire Chief was very pleased," stated Doctor Corwin. He attributed the amateur's success to a rigid equipment maintenance schedule and the proctor system, whereby men in the laboratories take turns as firefighters. The equipment used has already been cleaned and checked and is ready for immediate use.

Dr. Corwin particularly commended the actions of H. W. Bitt-

(Continued on Page 3)

Actors Draw Good Crowd

Between five and six hundred people attended the Barnstormers' initial production, "Room Service," presented at the Poly auditorium last weekend, Stormer officials announced this week.

The organization is not dependent on gate receipts, and charged no admission to the play. However, organization representatives stressed that a well-filled house is necessary to the success of the production, from the point of view of actors' morale.

The spokesman said that most of the attendance came from outside Hopkins. All high school students in the city had been invited to attend.

Most comments on the play were favorable. Dr. W. Kelso Morrill, Director of Student Activities, remarked that "Room Service" was one of the best Stormer productions he had seen in recent years.

The second play of the two-bill season will be given in the spring.

JHU Group Heads For Stick Confab

Hopkins trainer Jim Benson will lead an as-yet-scanty JHU representation to the third annual lacrosse forum and exhibition game, to be held from December 22 to January 4 in Palm Beach, Fla.

Benson will lecture the assembled coaches on lacrosse injuries and will serve as trainer for the Rebel team in the yearly Yankee-Rebel encounter. Among those Hopkins students and alumni scheduled to make the trip are Ed Semler, All-American defense man last season, and Bob Burgess, 1953 frosh lacrosseman slated for varsity duty this spring.

Anyone, be he player, coach, or spectator, is invited to attend the forum. In the case of Blue Jay students, all that is required to travel to the "sunny climes" of Florida is permission from Athletic Director Marshall Turner and approximately \$90 for living expenses.

FAMOUS MOVIE STAR

For Mildness and Flavor

CAMELS AGREE WITH MORE PEOPLE THAN ANY OTHER CIGARETTE!

-Editorial-

This week, with a special issue for Christmas advertising, The News-Letter returned to something like normal. Our pictorial issue at least caused plenty of comment, surprisingly mostly favorable. Several people told us that they wished we'd do it more often.

Good, bad, or indifferent, last week's photo-packed edition was probably the only one of its kind. It was financially possible by the contributions of the four classes, WJHU, and the Barnstormers. Without the contributions of these groups, the issue's photography would have been out of the question.

As a last word in fond memory of the "sensationalism" which made the back page of the Evening Sun, we would like to thank Glen K. Parker, who did the photography, and our copy staff, who made the shift to tabloid headlines and layout with ease and good humor.

Amateurs Put Out Chem Blaze Quickly

(Continued from Page 1)

ner, Laboratory Manager for Remsen Hall, who was the first person to reach the fire and who directed the fire fighting procedure.

Queried as to the cause of the fire, Dr. Corwin said that it was a "freak accident" and occurred while Mr. Paul Alisea was dehydrating distilled benzene. Dr. Corwin emphasized that a reaction between sodium and water was not the cause of the fire, as only minute quantities of water remain after the fractional distillation of benzene.

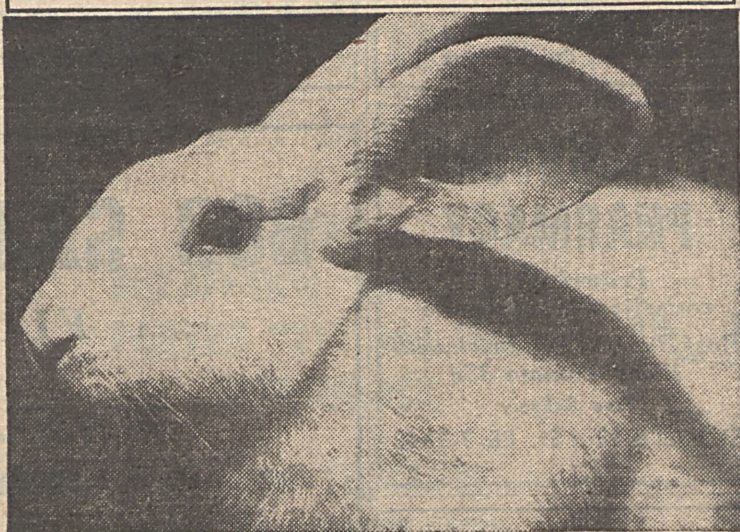

Exact cause of the accident will not be determined until Alisea has recovered sufficiently to be questioned.

Dr. Corwin said that, as in the case of all laboratory accidents, a careful investigation will be made to determine how such a mishap can be prevented in the future.

The editors of the News-Letter will entertain the editors of the Goucher Weekly at a co-educational soiree, tomorrow at 4 a.m. in the News-Letter office.

John Griffith will be on hand for entertainment. Chaperons will be invited.

J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

Here's a sad cotton tale: poor Paul was in a stew about his hare until his paw wrote: "I ear you got a bun on because your girl left you. Now, lettuce look at the bre'r facts. To get in on the bunny huggin', smart rabbits foot it down to any toilet goods counter for Wildroot Cream-Oil, America's biggest-selling hare tonic. So fuzz thing tomorrow, invest 29¢ in a bottle or handy tube. Contains soothing Lanolin. Non-alcoholic. Grooms the hare. Relieves annoying dryness. Removes loose, ugly dandruff. Helps you pass the Finger-Nail Test." Sheedy tried Wildroot Cream-Oil and now he's a jump ahead of every Tom, Dick and Harvey. So what're you waiting for? Get Wildroot Cream-Oil today, and ask for Wildroot at your barber's. You're bound to like it!

ELECTRICAL ENGINEERS and PHYSICISTS

HUGHES RESEARCH AND DEVELOPMENT LABORATORIES last year added to their Staff 75 graduates in Electrical Engineering and Physics from colleges and universities throughout the country.

In addition, more than 90 other graduates joined the Hughes organization for continued opportunities in their fields through the HUGHES COOPERATIVE FELLOWSHIP PROGRAM FOR MASTER OF SCIENCE DEGREES. This is a continuing plan to assist outstanding graduates in obtaining their Master of Science Degrees while employed in industry and making significant contributions to important military work.

Hughes, one of the nation's leading advanced electronics organizations, is located in Southern California. College and university graduates who qualify work in the following divisions at Hughes:

RADAR LABORATORY
GUIDED MISSILE LABORATORY
ADVANCED ELECTRONICS LABORATORY
ELECTRON TUBE LABORATORY
MICROWAVE LABORATORY
SEMICONDUCTOR DEVICES
FIELD ENGINEERING

RESEARCH AND DEVELOPMENT personnel work with Radar Systems, Servomechanisms, Computers, Systems Analysis, Information Theory, Automatic Controls, Physical Analysis, Microwave Tubes, Pulse Circuitry, Semiconductor Physics, Diodes, Transistors, Photo Devices, Test Equipment Design, Miniaturization, Electromechanical Design, Gyros, Hydraulics, Subminiaturization, Mechanical Design, Instrumentation, Telemetering, Antennas, Wave Guides.

ENGINEERING WORK INCLUDES THE FIELDS OF Technical Writing, Missile Field Engineering, Engineering Administration, Radar and Missile Instruction, Radar Field Engineering, Patent Law.

HOW TO APPLY: Consult your Placement Officer for personal appointment with a member of our Engineering Staff who will visit your campus January 8, 1954

EASTERN RAILROADS

Well-Known Reindeer Tells All

NORTH POLE, ARCTIC. Looking very dapper for an 18-point buck with chalked muzzle and matching white tail assembly, Dasher, famous front-running reindeer for the S. Claus Parcel Service, stated today:

1. Conditions on the northern tundra are pretty much the same as ever. No-o, TV hadn't affected the grazing habits of the middle-class herds.
2. That despite reports to the contrary, you don't ever thoroughly adjust to sub-zero weather, regardless of the warm esteem people hold you in.
3. Rumors of a reindeer strike for Christmas Eve are unfounded. Somebody's got a termite in his antler.

When asked about the most popular Christmas gift down through the years he replied without hesitation: "Menswear by *Manhattan*. I've helped haul Mr. Claus's sled, roe and buck, nigh unto forever... so I ought to know... nothing makes a man happier than shirts, sportshirts, ties, pajamas, beachwear or underwear labeled *Manhattan*. Don't know whether it's the live style that makes a man look and feel so good, whether it's the traditional tailoring detail, or the array of fabrics, patterns and colors that are all so unmistakably quality. I'll admit one thing. I've kind of wished sometimes that *Manhattan* would make deerwear."

We Telegraph Flowers Anywhere

How silent is the night?

Watching the serenity of Christmas skies we are conscious of deep silence. Yet the stars are talking to us all the while—talking in radio waves that are full of meaning to scientists probing the depths of space.

The important discovery that some stars produce radio waves was made by a Bell Laboratories scientist while exploring atmospheric disturbances which might interfere with transoceanic telephone service. His discovery marked the birth of the fast-growing science of radio astronomy. It is telling us of mysterious lightless stars that broadcast radio waves, and it promises exciting revelations about vast regions of space concealed by clouds of cosmic dust.

And so from the probings and skills of Bell System scientists and engineers has come another tool to help man understand better the universe in which he lives. These men are a proud team—members of a still larger team engaged in research, engineering and administration and working on telephone problems in all parts of the country. We would like you to consider joining them.

There are employment opportunities with the companies that provide telephone service, with Western Electric, and with the Bell Laboratories. We need young men for the leaders in tomorrow's Bell Telephone System. Check today with your Placement Officer for details.

Production Supervision

Requires Knowledge of Materials, Machines, and Men

Wm. W. Kinsley, M.S. in M.E., Penn. State 1949 (left), production supervisor in Du Pont textile fiber plant, is introduced to new operator by foreman.

Keeping production rolling in a modern industrial plant is a job that appeals to men trained in many branches of science and engineering. If you are looking for opportunities in this field, you won't have to look far at Du Pont, where more than 1,500 members of the technical staff are engaged in production supervision.

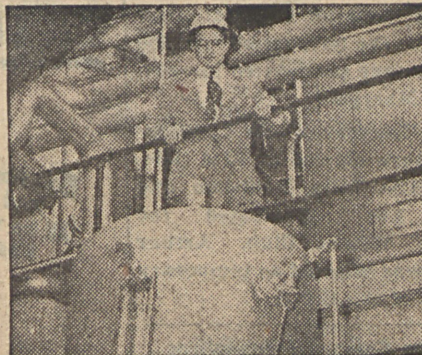

To qualify, a man must be able to understand both the mechanical and chemical phases of production. In addition, he should be a good planner and, above all, have a knack for working with others.

Production supervisors are responsible for care of plant facilities, supply of raw materials, supervision of operation and maintenance, cost and shipment of finished products, as well

as personnel relations, training and safety.

Since Du Pont makes over 1,200 products and product lines, it can offer many opportunities in a wide variety of operations to men interested in production supervision. In Du Pont's Organic Chemicals Department, for example, most technical men start in plant development groups, where they gain a background in both the technical and economic aspects of manufacture. Those with interests and abilities in production may then transfer to that field to acquire further, and more detailed, experience. Advancement leads to jobs as Building Supervisor, Senior and Chief Supervisors, and Superintendent.

The responsibilities of these supervisory levels vary, depending upon

George B. Bradshaw, Jr., B.S. Ch. E., M.I.T., Asst. Supt., inspects a unit used in ammonia synthesis operation.

the men, the operation, and the products.

For example, in manufacturing dyes, up to 50 different operations may be carried out. Production and maintenance must be carefully planned and scheduled so that all needs for finished product are met. Temperature, pressure, and quality of reactants must be carefully controlled to insure that each batch of dye will match previous batches exactly.

In making each color, from 6 to 10 different unit processes may be called upon. And, in the course of time, all the unit operations known to chemical engineering come into play. Obviously, production supervisors have excellent opportunities to use and expand their technical knowledge and ingenuity. Equally important, they can acquire background and varied experience that prepare them for advancement to responsible positions in management and administration.

ASK FOR "Chemical Engineers at Du Pont." New illustrated booklet describes initial assignments, training and paths of promotion. Just send post card to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington, Delaware. Also available: "Du Pont Company and the College Graduate" and "Mechanical Engineers at Du Pont."

LATEST COLLEGE SURVEY SHOWS LUCKIES LEAD AGAIN

She hoped that he'd propose by mail,
And when she got his letter,
All he wrote upon the note
Was: "Luckies taste much better!"

Hyman Levy
C. C. N. Y.

Last year a survey of leading colleges throughout the country showed that smokers in those colleges preferred Luckies to any other cigarette.

This year another far more extensive and comprehensive survey—supervised by college professors and based on more than 31,000 actual student interviews—shows that Luckies lead again over all other brands, regular or king size...and by a wide margin! The No. 1 reason: Luckies taste better.

Smoking enjoyment is all a matter of taste, and the fact of the matter is Luckies taste better—first, because L.S./M.F.T.—Lucky Strike means fine tobacco. And second, Luckies are made better to taste better. So, Be Happy—Go Lucky!

To make a hit at Christmas time,
And really spread good cheer,
Give all your friends that smoother smoke—
Give Lucky Strike this year.

Frank G. Wylie
Kansas State College

She's got a red convertible
And flashy diamond rings,
Smokes fresher, smoother Luckies, too—
She likes the best of things!

Fred D. Mitchell, Jr.
University of Texas

Where's your jingle?

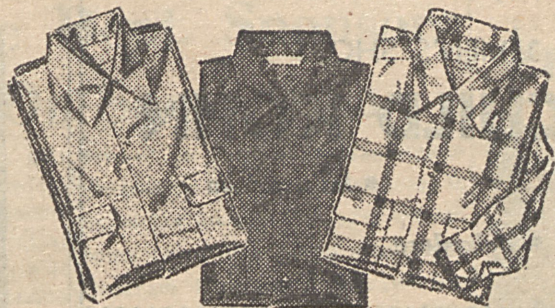

It's easier than you think to make \$25 by writing a Lucky Strike jingle like those you see in this ad. Yes, we need jingles—and we pay \$25 for every one we use! So send as many as you like to: Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y.

YOUNG AMERICA GOES CHESTERFIELD

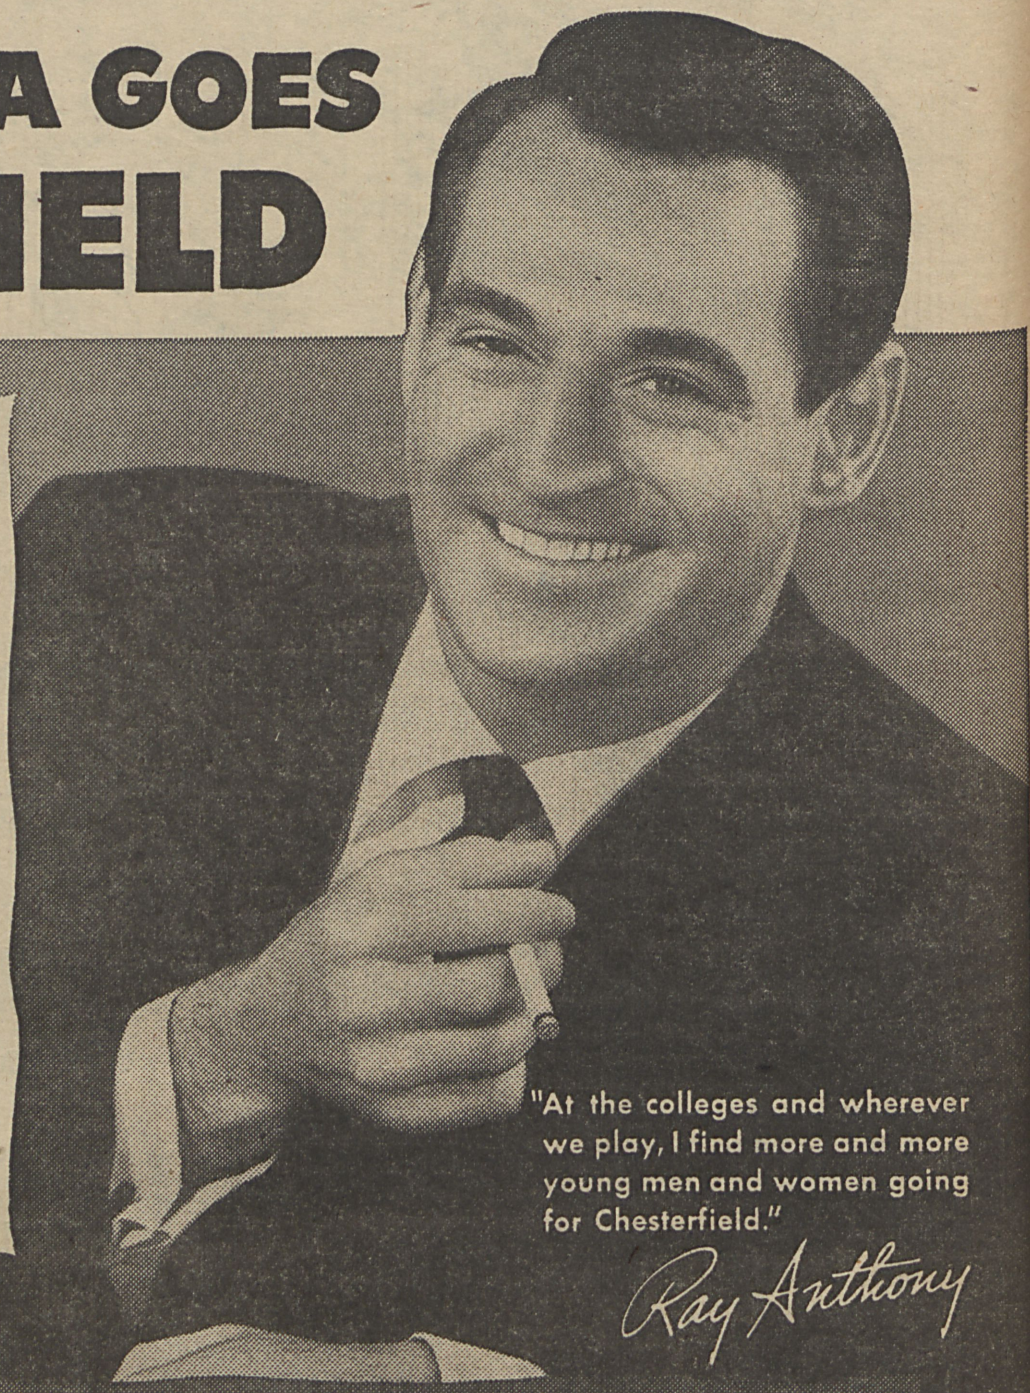

FOR THE FIFTH STRAIGHT YEAR CHESTERFIELD

IS THE LARGEST SELLING CIGARETTE
 IN AMERICA'S COLLEGES . . .

by a 1953 survey audit of *actual sales* in more than 800 college co-ops and campus stores from coast to coast. Yes, for the fifth straight year Chesterfield is the college favorite.

CHESTERFIELD IS THE ONLY
 CIGARETTE EVER TO GIVE YOU PROOF
 OF HIGHEST QUALITY—LOW NICOTINE

Change to Chesterfield today — get smoking pleasure all the way!

"At the colleges and wherever we play, I find more and more young men and women going for Chesterfield."

Ray Anthony
