JOHNS HOPKINS UNIVERSITY,
BALTIMORE.

15 April 1896

Prof. D. O. Gilman

As you know I expect to take my degree in Medicine this year. After that I want to have a position in the Maryland General Hospital, and in order to get such positions, one needs not needs only knowledge and ability but also a "pull" as they call it. Yesterday I have been advised by some member of that Faculty to get a certifying letter from you, that I had been teaching Modern Greek in this Institution for this whole session, and that I have been faithful in my duties, and you hope that I shall ever be faithful in this position if I can get it. Please address the note to the superin-

tendent of that Hospital. "Prof.
Robert Johnson B. A. M.D."
whom you know personally as
well, as I have been told.

I would not ask you such a
favor if I had not known your
kindness and sympathy especi-
ally towards the "Foreigners" in
this country who have very few
friends. Also if I had not
been told your special influence
to them as they think very high
of you.

If you can write to day or to-
morrow, as they'll have their
meeting to morrow evening.
You'll leave me obliged during
all my life. I remain your
Obedient servant
K. P. Xenides.

This certifies that K. P. X
has given instruction in the
U. S. Navy

24 April 1896

Prof.

Samuel Gilman L.D.S.
Dear Sir!

I have great pleasure to announce you that I have been able to pass my final examinations in Medicine with greatest success, with a prize, and that have been able to get the position in the Hospital for which I had applied.

I believe that it was partly through your influence, so I have to thank you heartily for all you have done this year for me. Please accept my hearty thanks. I remain your obedient servant

J. H. U.

Prof. Gilman

President of the Johns Hopkins
University.

PRESIDENT'S OFFICE.

Dear Sir!

I hate to dis-
turb you so often, but I hope
you understand my position too.

My application for teaching of
Modern Greek in the University
has been applied by Prof. Gildersleepe
long time ago, and till now I have
not had any answer. I hope the
matter has not been neglected entirely.

As I understand partly this delay
or post-poning ^{is} ~~was~~ due to the finan-
cial condition of the University,
if that is the only reason I am per-
fectly willing to cut from my requ-

PRESIDENT'S OFFICE.

lar salary $\frac{1}{6}$ or $\frac{1}{4}$ of it, and if still necessary even more than that, because if I seem to be too anxious to have this position it is not simply because I shall have a few dollars from it, but mainly because I feel pleasure and pride in teaching my own celebrated language in this University.

Now if there is any other objection, if you will kindly mail me a negative note, through the secretary, I shall be ever so much obliged to you, as my staying in Baltimore depends partly to the answer I shall get from you.

Your most obedient servant

K. P. Xenides
