By Morris A. Whereas, we find that many college newspapers of America are being deprived of their freedom of expression by faculty and administration interference; and

Whereas, it is the avowed purpose of this organiation "to promote cooperative relations between its members, and to endeavor to develop the highest standards of college journalism." Therefore, Be is Resolved, that we resent any action of a University Administration or Faculty to muzzle student editorial fredom in any manner whatsoever, that we resent and condemn any attempt to prescribe what a student shall or shall not think; That an investigating committee be appointed immediately to determine which of the colleges represented in this gathering has violated the code of the Bill of Rights in regard to its student papers. By violation we mean any attempt by the faculty or administration to control the election of editors or any attempt to censor news columns or editorials, or any attempt to limit the subject matter which lies within the law, or attempt to sway deliberately the editorial opinion of

#### Strange Interlude

The Johns Hopkins NEWS-LETTER has complete editorial freedom-and no one thinks it unusual.

The NEWS-LETTER does not pay its editors with NYA salaries, or scholarships, or cash, or college credit-and no one thinks it strange. In fact, it is a subject of pride on the campus.

The University, by the same token, makes no bones of the fact that it does not pay its football players. It stands out as one of the few colleges can still boast of non-commercialized

opposite is taken for granted. Football players are paid-because it's victory that counts, and not how the game is played. Editors are paid for why should a man spend so much time and work so hard for an extra-curricular activity? Who ever heard of a man working on a paper because he enjoys the work? But more important and fundamental than these is the fact that not more than one out of ten editors can boast of total editorial freedom. The saddest part of a natter is that many g sain sn't know what ediof these

Sadly, the boys went to bed and, regarding their experiment as a waste of time, they discarded any further whether he was a "regular fellow" or attempts to make the acquaintance of the stranger.

> About three o'clock in the morning, one of the boys awoke out of a deep sleep. Something was in the room, alien and unnatural. As his eyes became adjusted to the gloom, the fellow noticed that their neighbor was bending over the bed of his roommate. With a wild yell which called in the two other boys from the next room, he leaped upon the intruder and bore him to the floor. Lights were put on, the captore was secured, and explanations came in order.

Attempted Revenge

The fellow who had sneaked in was found to have some carefully powdered crackers in his robe, which he had expected, no doubt, to put in the beds of his tormentors to give them a taste of their own medicine. Well, like many a similar instance, the incident ended with a bull-session, and peace was declared.

This, however, was not the end. The next day one of the freshies saw his new-found acquaintance in the distance, and nudging his companion, "Oh, that'sgraduate student doing special re-

Mr. Dale Hartzler Gramley, faculty advisor of the Lehigh Brown and White objected to the resolution, saying "This resolution is based on the presumptions that the student is always right, and that the faculty is always wrong." The essence of all of their comments was that the student should have the right to his own opinion and the method of formulating it.

Amendment Sought

The editor of the Lehigh Brown and White, presented an amendment to the resolution, stating that the editor of the college paper should decide whether or not their relation to their college should be investigated by the committee provided for in the reso-

This scoreless tie only helped to make the league more interesting. Unless an upset occurs, D.U. and O.K.O. must meet in a playoff to decide the victor. D.U. has only the lowly Phi Alpha to combat while O.K.O. will meet Phi Sigma Delta. Neither Phi Alpha nor Phi Sig is expected to offer much competition to the leaders.

An upset by Kappa Sigma eliminated the other contestant, Kappa Alpha. K.A. dropped a 18-0 decision to the Kappa Sigs. In this game the victorious frat showed better form than in previous encounters. The entire team functioned well, and two touchdowns by Almquist and one by McGovern gave K.S. its second victory. This win placed Kappa Sigma in a tie for fifth along with a forfeit win over Phi Sigma Delta.

D.U. Wins Easily

In games played the first part of the week, Delta Upsilon, O.K.O., Kappa Alpha, and Kappa Sigma netted wins. D.U. crushed Phi Sigma Delta 36-0. Every starting player of D.U. tallied, and with Murphy's score a total of 36 markers were registered. Phi Sig fought hard, but the superior passing and running attack of the victors was too much. Although receiving unexpected opposition, O.K.O. scored over Phi Epsilon Pi. Soifer and Seder marked up 12 points for the Phi Eps, but O.K.O.'s star, Lloyd, retaliated with three touchdowns.
