Rushing Season Draws to Close, Annual Interfraternity Ball Planned for Friday, March 5

Tomorrow evening will be the final general open house in this semester's rushing season, and bidding will take place on Sunday afternoon at 3 o'clock, Harry-Leopold, president of the Interfraternity board, announced

Last week, the first week of the rushing season, was devoted after-noon open houses. In addition, the fraternities were assigned days for rushing in the Levering ball cafeteria. nity members were not permitted to enter the cafeteria on the days for which their fraternities were not assigned. On Sunday night a gen-

eral open house was held.

This week luncheons and evening parties were held by the fraternities on assigned dates.

On Sunday at 3 pm bids will be presented individually. The preferential bidding system used last semester has been discontinued, and the system used in previous years readopted.

The Fourth Annual Interfraternity Ball will be held at Levering Hall on Friday night, March 5, from nine to twelve. The ball is being jointly sponsored by the Interfraternity Board and Levering Hall.

and Levering Hall.

Harry Leopold, Interfraternity
Board president, stated that the board
will stress as its theme this year that
the ball is more than just a
dance; that it is something gger
than each individual frate. .ty. He
stated further that this ball would
be the unification of all the fraternities for a single purpose — the bringing out of the 'true Hopkins spirit.'
Leopold said, 'Because of the many
id
wartime restrictions that may be put
upon the the shoulders of each individual fraternity and upon the
fraternity Board is stressing wholehearted cooperation among the inhearted cooperation among the in-dividual fraternities in all future social and school activities.'

Following the ball, from twelve on, there will be a general open house at all of the fraternities. Individual all of the fraternities members of each fraternity have been urged to visit as many other houses as possible during this time.

Dr Bowman Speaks At Commencement Of 139 Seniors

February 13, Dr Isaiah Bowman, president of the University, conferred baccalaureate degrees upon one h dred and thirty-nine seniors in the auditorium of the Maryland Casualty company. Michael Callas, who received his degree in engineering, was awarded the Alexander K Barton cup by Dr G Wilson Shaffer. The cup is awarded each year to the senior who has most fatihfully served the inter ests and ideals of the University throughout his collegiate course.

Receiving the degree of Bachelor of Arts, Louis Drummeter, Donald Fleming, Joseph Lerner, Robert Resnick, and Leon Toby graduated with honor. Sidney Katz, George Saarp, and John Thomsen graduated w h honor with the degree of Bache-lo of Engineering. Among those rded Bachelor of Science degrees from the College for Teachers,
Francis Friedlein and Eleanor
Goedeke were graduated with honor.

Following the academic procession
Dr Bowman addressed the graduates Dr Bownan addressed the graduates and audience. Dr R D Havens, professor of English, presented to the University a portrait of Dr John O French, retiring librarian of the University.

Activities Society Taps Seven Men, Elects Officers

The Beta circle of Omicron Delta
Kappa, national activities society,
tapped the following men on January 28 at an assembly in the Greathall of Levering at 12.30 pm:
James Cantrell—captain, Scabbard
and Blade; Student council, 1942-43;
Todor and Stuart club.
Floyd Culler—president, Junior
class; president, Tau Beta Pi.
Ted DeBois—president, sophomore
class; Student council, 1942-43;
YMCA cabinet; secretary-treasurer,
'Cotillion board.

Cotillion board.

Heptey Guild—chairman, SAC;
provident, H club; Scabbard and
Blade; Tudor and Stuart club.

Robert Lloyd—president, Student
coulcil; president, YMCA Student

council,
Geometric Francisco Council,
Geometr

scabiarman, Junior Prom committee;
Scabbard and Blade.
Edward Duggan—chairman, Junior
Prom, 1942; president, Cotillion
board; president, H club, 1942; Student council, 1942; Athletic Association board; captain, soceer team.
Cantrell is a member of Beta Theta
Pi fraternity; Culler, Hartmann, and
Duggan, of Kappa Alpha; DeBois,
Phi Epsilon Pi; Guild, Alpha Delta
Phi; Lloyd, Phi Gamma Delta; and
Leopold, Delta Upsilon.
The newly tapped men sected the
following officers at the farst meeting
of the society actor the Assembly: W
president, Edward Duggan; vice-presarident, Floyd Culler; secretary, Henley
Guild; treasurer, Harry Leopold.
James Cantrell, who was chosen sergeant-at-arms, has left the undergraduate school in order to attend graduate school in order to attend the School of Medicine. Another elec-

will be held for that post.

Class Elections

The Student council has announced that elections for class officers in all four classes and for a Student council representative of the February freshman class will be held the week of March 8. Petitions nominating candidates for office, signed by twenty members of the candidate's class, should be in post office box 1248 by Friday March 5.

Doehler of Loyola To Address IRC At Next Meeting

According to tentative plans, Dr Edward W Doehler of Loyola college will speak on the Attitude of the Catholic Toward the Coming Peace and Post-War Reconstruction at the next meeting of the International Relations club. His talk will be one of a series dealing with the attitudes of various groups in the population toward the kind of peace that should be made and the means by which reconstruction should be attempted.

Dr Doehler is the faculty adviser of the Loyola college International Relations club. This group has been invited to attend the meeting at which Dr Doehler will speak. In addition the club has been negotiating with the Goucher college International Relations club, and the general agreement has been reached in favor of joint meetings at intervals.

When asked about membership requirements, Jerry Piven, secretary of the Hopkins organization, said There are no fixed requirements for membership. Those who attend meetings are completely opto the public. All Hopkins in the day or evening about, invited to come.

Alumni Office Releases List of Men in Service

Playshop to Give Comedy by Lorca

The Playshop will present The Shoemaker's Prodigious Wife, by Garcia Lorca from Tuesday, March 2 to Saturday, March 6 at 8:30 in the evening in the Barn on the Hopkins campus. Lorca is a famous Spanish dramatist and poet who died in the ecent civil war.

Dr N Bryllion Fagin, director of the Playshop, characterized the play as a 'folk comedy full of humor and dash.'

It is being directed by Mrs Isabel Burger, with music by Lorca himself, arranged by Anne Powers. Special dances are being arranged by Cathrine Cockey. The stage manager of the play is James Applegate.

The cast includes Walter Pearthree s the shoemaker, Doris Railing as his wife, Tommy Burger as the boy, Delmar Solem as the mayor, Danie er as Don Blackbird, Dolly Ash ey, Jane Strahan, Edith Natanson, Margaret Mitchell, Betty Covington, as neighbors and gossips, Bill Jaeger as the sashmaker's apprentice, and mes Applegate as the hatmaker's

pprentice.
This is the second major production of the Playshop season, the first having been Chekhov's The Cherry Orhard. The third production will be an original prize play selected in a ational contest.

Wright Announces

ulta for Latina In Cafeteria

Because of the increased use of the Levering hall cafeteria, not only by the students and employees of the University but especially by the groups from the Signal corps which are on the campus, it has been found necessary to encourage a new plan of sctivity in the cafeteria. Frank Wright, YMCA secretary, said, 'In order to "Help Ease The Squeeze" those who use the cafeteria are asked to observe the following rules:

"1 Eat in the cafeteria, but "visit" upstairs-the tables and chairs are

'2 Stack your dishes before you leave—this will save time in clearing

'3 Throw waste paper in baskets if you bring your lunch, dispose of waste paper in the baskets and place milk-bottles in the center of the

'4 Replace chairs at the proper tables and keep tables in order.

Mr Wright further stated that veryone's cooperation is necessary the service in the Levering hall ps is to be maintained for all to

Student Service Conference

Thirty-three students representing even colleges met in Levering hall last weekend to consider ways and means of raising funds for the World Student Service fund. Bob Lloyd, Frank Wright and Dr Ernst Feise of the Hopkins YMCA and Don Bautz and Phil Dunk of the Lutheran Student association represented the

University.

Miss Wilmina Rowland, executive secretary of the Fund, and Tracy Strong of the War Prisoners Aid were leaders at the conference. They presented a graphic picture of the work being done through the World Student Service fund among dispossessed students in China, Russia, and the United States, among students (Continued on Page 4, Col 6)

Dr Hubble Talks At the Hopkins Commemoration

The Commemoration Day celebr year on February 22 in conjunction with the observance of the four-hundredth anniversary of the death of the Polish scientist, Nicolaus Coper-nicus. Dr Edwin Hubble, member of the staff of Mt Wilson observatory

The Committee on Undergraduate Affairs met with five leaders of campus activities at dinner at the Faculty club on Monday, February 15, in order to discuss current problems of under instead affairs. The committee is composed of P Stewart Macaulay, provost of the University, chairman, Dr G Wilson Shaffer, dean of the College of Arts and Sciences, Dr William B Kouwenhoven, dean of the School of Engineering, and Dr Howard E Cooper, dean of the School of Engineering, and Dr Howard E Cooper, dean of the School of Business Economics. The undergraduates present were Robert Lloyd, president of the Student council, Henley Guild, chairman of the Student Activities committee, Edward Duggan, chairman of the Cotillion board, Harry Leopold, president of the Intertraternity board, and James Applegate, editor-in-chief of the News-Letter.

and James Applegate, editor-in-chief of the News-LETTER.

Students' War Status

The problem of alleviating the doubt and confusion in students' minds as to their war status was discussed, the main difficulty in this situation stated as lying in the organization of information coming through three channels to the University: through Dr Sidney Painter as advisor to the students, through the Military department, and through the Administration. Contradictory orders are constantly coming in, sometimes with condicts between the material sent to the ous sources within the University is situation would make, there a day-by-day report to the output of the confidential of the confidentia

of the section on exterior ballistics at Aberdeen, Maryland, spoke on the subject of The Exploration of Space. He explained the various theories of the universe which, he said, are gradually converging into a new theory although such a development is not yet in sight. He predicted that many of the problems in the development of, this new theory will be solved when the new 200-inch telescope is completed at Mt Wilson sometime after the war. Dr Hubble illustrated his lecture by slides, most of which were taken through Mt Wilson's 100-inch telescope.

inch telescope.

Dr Isaiah Bowman also spoke at
the celebration and introduced the
speaker. Approximately seven hundred people attended the exercises,
including several representatives of
various Polish organizations in Baltimore who were invited

Hopkins Debates Boston University On World Union

Last Friday evening The Johns Hopkins University Debating council met a Boston university team in the Sherwood room of Levering hall. Rowland Brandwein and Arnold Harberger of the Hopkins, debating against William Punch and Austin Freeley of Boston, took the negative side of the topic.

Resolved: That the United Nations should establish a permanent federal union with power to tax and regulate international commerce, to maintain a police force, to settle international disputes, and to enforce such settlements, and to provide for the admission of other nations which accept the principles of the union. According to the council's custom, there was no judging in the debate. The Boston team was entertained after the debate, and remained overnight at the dormitry.

Next Monday, at the regular meeting of the council, there will be a round table discussion of the topic given above. The meeting will be held in Gilman hall 108 at 5.15 pm.

their work. If Macsulay
They often do not realize that if
are more valuable to the nation
welfare with an education than without one, and that the better their
work the better their chances of completing their education. He added,
however, that this tendency has not
reached any alarming proportions at
the Hopkins but that an effort should
be made to decrease it even more.

The group decided to ask Dr Painter to speak to the freshmen, since
their situation is the most doubtful
in the University, and to try to clarify their position in their minds. According to a suggestion by Dean
Kouwenhoven, the first of these discussions was held with the engineering freshman at \$2.30 am on Saturday,
February 20. Dr Painter will arrange other meetings in the near
future with the pre-medical freshmen consisting of non-medical Arts
students and of business students.

Honor System
The meeting also discussed the

men, consisting of non-medical Arts students and of business students. Honor System

The meeting also discussed the problems of decreasing violations of the Honor code and of handling cases of violation turned in to the Council Lloyd said that the Council had found that many cases of violation are caused by students' lack of information as to what constitutes a violation in a particular course. He said that many students whom the Council knew-were-guilty had to be acquitted because of such excuses as, 'I wasn't told not to do it,' or 'Everyone else does it,' or 'It's not a violation according to my moral code.'

In order to eliminate the possibility of these excuses, Lloyd said that the Council had sent a letter to the entire faculty asking them to define clearly, to all their classes what may be done and what may not the done in any particular course, lec-

what may be done and what may not be done in any particular course, lecture or laboratory. He sald that a questionnaire was being prepared on which the faculty would state what they had told their classes; these questionnaires will be kept in the Council's files so that they may be consulted in particular cases.

Lloyd further stated that the Council's policy in regard to the Honor code wuld be one of instruction more than of regulation.

As to the matter of handling cases of violation, Lloyd said that during (Continued on Page 4, Col 5)

Compliments For The Council

In the last issue the NEWS LETTER proposed that the new Student council, with only one experienced member and without an experienced leader, had a great

problem to overcome its handicaps and to perform its functions even more successfully than previous, more experienced Councils have done. This week we are very pleased to report that the Council's, and in particula Bob Lloyd's, answer to this challenge has been extremely gratifying. With a burst of energy and activity not in a Council for years this group has begun straightening up its own organization, making and carrying out plans for improving the Honor system, and taking care of numerous details, such as the new Activiilletin board in Gilman post office, which have needed handling for a long tin

The principle issue which this Council has before it, as it has been with practically every other Council, is the operation of the Honor system. Their policy of insoperation of the Honor system. Their policy of iniction more than regulation is extremely commendit; their attempt to gain the complete cooperation of
St Mary's to of the most intelligent developments
functions whition of the Honor system that we have
will want to the most avident that the

There is been an execution or fine as the carpetter must assume a large part of the responsibility of the successful operation of the system, along with a Council and the student body.

Although the Council now shows no signs of let-up in its activities, we are still somewhat skeptical that they will be bogg#d down as others have by the weight of their job as the judiciary body for the Honor system. The News-Letter, therefore, hopes that the Council will carry out the suggestion made by the meeting of ittee on Undergraduate Affairs with the student leaders. The establishment of an empowered Honor commission would not only leave the Council free to perform its legislative functions, but also increase hte efficiency of honor trials by taking them out of the hands of a cumbersome body of twelve people and putting them into the hands of a body of five.

It is argued that sophomores and freshmen should be represented in honor trials to speak for their class-mates; but the issue is not one of being tried by one's own classmates, but rather of being tried by a just and competent group. By the time a man is a junior or a senior, he has had opportunity to become well ac-quainted with the Honor system, and his classmates have had opportunity to judge his competence. Fresh-man elections and usually sophomore elections are hardly more than popularity polls.

The News-Letter can see no objection, furthermore, in the addition of a faculty member to the Commission in a purely advisory capacity. Records, even when are well kept, never tell an absolutely con story of any particular case; a faculty member following cases over a period of years could give valuable advice by supplementing the information given in the bare facts of records. As long as his position remains purely advisory, the News-Letter does not see that such a move could be interpreted as an infringement upon student independence.

The Problem Of The Women

The advent of eighty un dergraduate women upon the campus brings an entirely new situation before student activities; although

these women are technically not enrolled in the undergraduate schools they are nevertheless undergraduates and cannot be ignored. We must further admit that we cannot afford to ignore them.

At this point the situation of participants in activi-At this point the situation of participants in activities is not too desperate; but there is no sense in denying that the problem of continuing activities is going to become increasingly difficult. A solution presents itself in these undergraduate women who are interested in working itself on campus activities.

To date the only action that has been taken is the

admittance of women as candidates for the News-Letter staff and the establishment under the sponsorship of the nt council of a Women's Honor commiss News-Letter predicts, however, that other activities

are going to be asking for help from them.

It may seem a simple issue merely to add wor the personnel of activities; but the fact remains that Hopkins has been a men's university, is technically a men's university, and will be a men's university after the war. If women are to begin taking over now, provision must be carefully made to return undergraduate affairs to the men after the war. The problem of making such provision remains unsolved.

First Things Come First

As the crisis in manpow er heightens, the repute of the present Congress is steadily going down. In-stead of confining itself to constructive legislation and

objective criticism regarding the war effort, it appears to have centered its attention on political and personal

In the first place, a decision has been made to de the War Manpower commission of needed additional funds as long as Paul V McNutt retains his post as chairman. While there are many who criticize Mc-Nutt's handling of the manpower, there are probably few who do not realize that much progress has been attained under his leadership. Men have moved and are still moving from non-essential into essential jobs. To refuse the commission the funds to continue its planned ons is to impede this necessary movement of men.

In the second place, a group of southern Democrat has proposed and is backing a bill to prevent absented ism in war plants. That absenteeism is a pressin problem no one will deny. The labor unions then selves are working to prevent it. But the bill propose goes further than to cut down absenteeism. It place in the employer's hands the right to report 'unexcuser absenteeism. This weapon is potentially a negation of all the progress which has been made in labor legisla tion in recent years.

n in recent years.

In the third place, Representative Kilday has pro sed a bill assuring the deferrment of the induction been called. It is evident that we have more things which need to be done than we have men to do them. It is equally clear that even on the basis of training and occupation, these needs will not be met. We can not take into account traditions or sentiments too.

It is without but true that some congressmen ater's mate and WAN burners

sider the New Deal and the policies for which it stands to be undesirable. And the News-Letter does not wish to dispute their right to believe so. But we can say that the New Deal is not as great an evil nor as menacing a threat as the Axis war machine. And we hope that Congress will soon gain the vision needed to put first things first.

Congress Versus Puerto Rico

The situation in Puerto Governor Rexford G Tug-Rico was clarified last week by a vote of confidence in well by the Puerto Rican legislature. The vote came

in the form of a request to President Roosevelt not to remove the governor from office.

For a long time shouts of indignation have arisen in Congress over the supposed maladministration of Tugwell. There have been in the past several attempts Congressional groups at his removal-attempts which were fortunately unsuccessful. Recently, however, the Senate Territories committee has approved a bill to oust Tugwell, and has sent a subconinvestigate conditions on the island.

Without doubt the committee will find many disappointing aspects of Puerto Rican society. First, the island is overpopulated, and even in the best of times full employment is unattained. Second, the shipping shortage has brought many of the islanders to starvation rations, and few staple foods are produced which could alleviate their need. Third, sugar produc tion, the main occupation of the island, has been drastically curtailed by the lack of shipping space, adding a problem of excessive unemployment to that of food.

During his entire administration, Tugwell has aimed

at the alleviation of these most pressing problems of the Puerto Rican people. He extended the relief programs of the New Deal to the island, and advocated the provision of supplementary local relief. He enacted wages and hours legislation, instituted long-term plan-ning, and levied taxes on high incomes. He advocated the redistribution of the land into small holdings producing the subsistence goods which the islands needs

His principle opponents in Puerto Rico are the sugar oducers, the few manufacturers, and their allies. His principle supporters are the Popular Democrats. In the United States he is similarly supported by Roosev Democrats and attacked by conservatives of both parties. issue is clear enough.

It remains to be seen whether the Senate agitators will have the temerity to continue their demand for Tug well's removal in the face of the recent declaration of the popularly elected legislature in his favor.

old bugaboo. But then again, maybe it has not.

Letters To Box 1

Letter

TTER .

To the Editor of the News-Letter:

In the News-Letter of January
22 it has been announced that a
Hopkins-Goucher barn dance will be
held on Thursday, February 11; but
nothing has been mentioned about
the Hopkins girls. I happen to know
that the girls have been asked to
help to keep up the Hopkins NewsLetter while the boys are away.
So they are good enough for that,
but not good enough to be invited
to a Hopkins dance. I didn't know
that Goucher girls are considered
better than Hopkins girls!

A HOPKINS STUDENT. A HOPKINS STUDENT.

are two points which we should like to clear up with the 'Hopkins Student.' First, we should like to draw a clear line of distinct like to draw a clear line of distinction between the YMCA, who sponsored the barn dance, and the NEWS-LETTER. Although our office is in the YMCA's building, we have no control over their policies and activities nor they over ours.

Second, our correspondent is misinformed that the girls were asked to work on the NEWS-LETTER. While

we appreciate to the full whatever help they may give us, we must nevertheless point out that they pe-titioned the NEWS-LETTER, we did not

solicit them.

These specific items corrected, the general issue is clear: the 'Hopkins Student' is arguing for a better assimilation of the Hopkins girls into campus life. We agree that an attempt in that direction is only fair.

The social aspect is simple to an

social aspect is simple to an tent: a conference between Dr on and Frank Wright co bably settle the whole matter as as dances are concerned. But er the YMCA, the NEWS-LET neitner the YMUA, the NEWS-LETTER, nor any other agency can force Hop-kins men to date Hopkins girls— the girls must have their own per-sonal devices to fill that deficiency.

As far as activities are concerned, e girls must realize that there are complications involved in a re-

wersal or poncy, and diese must be well considered. For the NEWS-LETTER, we can say that we are trying to make our policies fit the new situation both in order to please the girls and in order to help fill a definite manpower shortage. But the details cannot all be worked out in a day.—The EDITOR. rsal or poncy, a

Letter
Editor, The News-Letter:
In the January 22 issue of the
News-Letter, next to an article by
me in which I may have waved the
flag a bit too lustily for collegiate
stomence appeared an editorial critichs, appeared an editorial criticizing certain points in an article by Dr Boas in the Atlantic Monthly, Dr Boas in the Atlantic Monthly, which I have not read. (Dr Boas will have to send his copy to True Story if he expects to be read in Kansas.). The editorial itself is another print from the same spineless stereotype seen constantly in the collegiate press, to the effect that peace is wonderful and its worth a nice if we could have some. One has visions of a pearly white dove sitting on a sprig of apple blossoms. on a sprig of apple blossoms.

My own experience in the army as

recruit of two months' standing ore or less substantiates Dr Boas' uoted dictum as to the relative edu quoted dictum as-to the relative edu-cation potential of academic grooves and the military life. As present my two years at the Hopkins seem like an oxygen tent in which I dreamed pleasant hallucinations. I don't re-gret them; they were very useful. However, I certainly collected a lot of mental baggage which is merely ornamental. My very vocabulary causes a blockage of ideas between me and my army friends instead of me and my army friends instead of nication of them. The truth is that they haven't an idea in the world in the academic sense. Yet world in the academic sense. Yet they are not hoodlums or philistines. Their sensibilities, though crudely expressed or not expressed at all, are tender and just. They are caused pain of happiness by just about the same things that bring worry or joy to the college student. An army adage is that you learn something new evry day, and the ex-college adage is that you learn something new evry day, and the ex-college student learns about twice as much per day as an illiterate from the Ozarks, and about seven times as much as he himself did in a day at school. The thing that troubles the editorial writer is the bogey of militarism. As yet I have no yen to poke a rifle in the ribs of a fellow-(Continued on Page 4, Col 1)

'The Eve Of St Mark' Eloquent And Stirring

Maxwell Anderson's new play. The

Eve of St Mark, is a telling play of the heroism of the men in the armed services of our country, and, at the same time, is a play in which the intellectual and emotional problems presented by the war are expounded, if not solved. This play is often humorous, often eloquent, and often stirring. Its form is probably more osely akin to that of the chroniclehistory play than to any other specific genre. Anderson attempts to create an emotional conflict in his hero, in order to make a more unified play; this attempt is, however, not ccessful. In the first place the audience knows the outcome, even before the conflict is supposedly resolved. We know that the men will stay on the island to fight to the last man, and will not retreat, as they have permission to do—we know this before the scene in which Quizz, the before the scene in which Quizz, the hero, is presented as passing through an emotional conflict. The scene, therefore, in which Quizz supposedly communicates with his fiance through the media of extra-sensory perception fall flat; it is full of emotional utterances that lack validity because they are in reality anti-climactic.

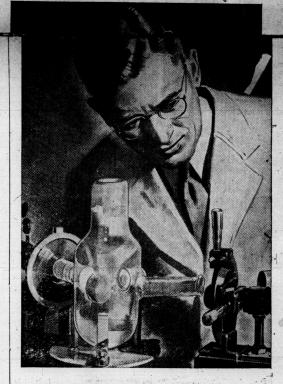

Mr Anderson has also hit upon a Mr Anderson has also hit upon a stumbling-block in that he has created, in the minor character of Pvt Francis Marion, a character who is not only more interesting than the hero, but also in whom can be seen the emotional and intellectual disturbances, presented by the hero, not the emotional and intellectual un-turbances presented by the war much more clearly than in the hero. to the wealth of an old So family to remain on the island there is more of a crisis than in Quizz' decision to do the same.

pointing when the author attempts become didactic about the role of the various people in our country in the present war. Most of this didacticism is reserved for the last scene, which is good, but it does make of the last scene a most unfitting epilogue to the stirring picture of the men on a island in the Philip-

We cannot say, however, that these defects are worth more than passing notice; for the play as an entity, whether or not it has unity in either theme or character, whethin either theme or character, whether or not it sometimes descends into the pedestrian, as it surely does in the last scene, the play remains as a noble and often penetrating exposition of the character of our present war and the men who are fighting it—and, as such, it is worthy of the highest praise—not as a great play, but as a great testimontal

the highest praise—not as a great play, but as a great testimonial. The cast of the road company, whose production this reviewer saw, is, at best, only mediocre. The part of Quizz is well done by John Dall, but the role of his fiance, played by Cyrilla Dorn, is woefully inadequate. Miss Dorn has a voice that is often Miss Dorn has a voice that is whining: the role of Janet Feller has some heroic and noble speeches in it—and whining and eloquence just don't mix. Charles Wiley, who plays the part of Cy looks and no more like a farmer than Leslie Howard.

One of the outstanding features of the whole night's entertainment is the technical production. An imis the technical production. An impressionistic set is used, and with the help of revolving stages, the scenes move rapidly. The lighting is particularly well done, and in view of the fact that most Broadway productions use only the most conventional lighting these days, it is extremely refreshing.

Battle without headlines!

The men and women of Bell Telephone Laboratories are directing their energy these days to developing new and better communication equipment so vital in today's swiftmoving global war.

Peacetime developments, pioneered by Bell Laboratories, are seeing action on every front. Many of their war-time achievements should prove stepping stones to progress in the coming days of victory and peace.

Service to the Nation - in war or peace, that's the one ideal of Bell System people.

Hopkins Basketball Season Ends This Week With Two Defeats By Loyola and Haverford

On The Line FJD

did-last loes nfit-ture

The Navy granted a reprieve to intercollegiate athletics this week with the announcement that sailor students will be allowed to participate in varsity sports. The only pate in varsity sports. pate in varsity sports. The only catch is that varsity athletics will be considered as extracurricular ac-tivities of addition to stiff physical drills and the prescribed course of study. In other words, the student may participate in athletics only in his senser time. his spare time.

Nevertheless, the Navy program does represent a liberal offer in com-parison with the Army's outright "No" expressed earlier in the week.

The V-12 ruling should also give much needed encouragement to those schools still struggling to keep alive intercollegiate competition. The Big Ten, for example, with its new freshman ruling, and with the aid of Navy students, should be able to produce a fock of Saturday's heroes just as flock of Saturday's heroes just as capable as the Harmons, Smiths, and Kinnicks of pre-war years.

Kinnicks of pre-war years.

Now that the question of athletic material has been partially settled, there still remain the problems of transportation, housing, and a scarcity of coaches. The situation in the Bast is particularly dara. The once powerful Big Three is giving up the fight. Minor sports have been abolished at Princeton, Harvard, and Yale, and there is every indication that nothing more than a feeble effort will be made to save King Football.

The situation here at Hopkins is presentative of headaches experitant at the state of headaches experitant athletics as usual. And while this, it not intended as an alibi for the asy's anemic showing in fall and winter sports, it is none the less true that Hopkins has been hard hit by wartime problems.

true that Hopkins has been hard hit by wartime problems.

The main bugaboo is the loss of much needed veteran players to the armed services. Every team on the campus has felt this to some degree.

The accelerated course of study is another barrier. Under this program, graduation cuts the winter sports schedule right in the middle and pares off a huge percentage of experienced players who are seniors.

The fencing squad, for example, was crippled by February graduations. Undefeated in four primary matches, the foilmen were destined for big things. However, graduation of such keymen as co-captains Mace Myers and Al Schwartzman has reduced the team to a pitiable condition. At-best, reconstruction would be a tough assignment; and with the present shortage of material, it will be virtually impossible. be virtually impossible.

The big question, of course, is whether the Jays will have material to produce another high powered la-

The Hopkins basketball team ended its season this week with losses to Haverford and Loyola. The Haverford game concluded a disastrous season which saw the Jays taking only one out of seven conference tests. The one victory was scored early in the season over Gallaudet. The truth is that Coach Gardner Mallonee just didn't have the material. With only Bud Thanhauser remaining from last vear's squad, the

Mallonee just didn't have the material. With only Bud Thanhauser remaining from last year's squad, the team was composed of green, inexperienced players.

The fact that the team never lost spirit in the face of overwhelming odds is to their credit. No one expected them to do better than they did, and no one can rightfully be disappointed in their showing.

The score of the Havefrord game played Wednesday night at Homewood was 34-27.

The Pennsylvanians were unable to build up a sizable lead at any point in the first half, though they led all the way. Half time found Haverford on top by a 17-13 score.

Midway through the second half the visitors, led by high scorer Hook Pruser, began to pile up a threatening lead. But the Jays, sparked by some nice shooting on the part of Lionel Zheutlin, managed to cut down the score to 34-27 by the final whistle.

the score to 34-27 by the final whistle.
Zheutlin with twelve points was high scorer for the evening, and Pruser led the visitors with nine counters.

high scorer for the evening, and Pruser led the visitors with nine counters.

For the second time this season, the basketeers just fell short of upsetting a highly favored Loyola five in a game played at Evergreen sast fuesday. The score was 39-34 in favor of Loyola.

The Greyhounds, with a vastly different squad from the one that had humbled the Jays earlier in the season, drew first blood on Franny Mueller's set shot. Hopkins then took command o' the situation and had scored eleven points before Loyola

wild sink another bropolitar From Julid sink and the half found them only one point behind, the score being 18-17.

Izzy Trovato's goal early in the second half started an upsurge for Loyola. From here on, the game was fought on even terms until late in the period. Gene O'Conor boosted

crosse team. The Navy ruling for V-12 students will not be felt in col-

V-12 students will not be felt in colleges until July. And whether Hopkins will be chosen by the Navy is as yet unknown.

One thing seems certain: schools not selected by the Navy are doomed to oblivion for the duration in intercollegiate sports. The future of varsity sports at Hopkins rests in the hands of the Navy.
Loyola's total with two long shots and the Greyhounds started to pull away. The Jays made one last effort in the dying minutes with a rally

Gardner Mallonnee

that netted four points. The final whistle found Loyola on the long end of the 39-34 score.

High scorer was Loyola's Franny Mueller with fifteen markers. The brightest, spot in the Hopkins picture was the fine play of Jerry Cooper, mid-term freshman, who sparked the Jays with his ten counters. Coopnerly played for the City College five.

New Heating

In order to remedy the situation of 'a cold gymnasium and colder locally rooms,' the University has secured a coal stoker to replace the present oil burner. The Faculty club which has the only other oil burning unit on the campus, is to be heated by a steam line from the greenhouse in the botanical gardens.

A Tribute to Johnny Hopkins

Taking time out from the dull onotony of nightly routine, your ost esteemed writer went out to wood last Saturday to view the asketball tussle between Delaware and Johnny himself. The University f Delaware won, of course, 60-24. ut the score was in my opinion, un mportant. Sitting beside me was ome old fellow, who evidently fol-owed collegiate basketball quite losely. By the remarks he made and e general attitude he assumed, one ould plainly see that he thought colge athletics had only one purpose ent of the general pub-Quite a few people seem to share this opinion; they seem to forget that ost men go to college to improve emselves both mentally and, in some cases, physically. These people seem to think that just because in the seem to think that just because in the course of physical improvement some athletes stand out from the rest and make a name for themselves, that every college game attended should be a three-ring circus put on just for the entertainment of, the public, but if it isn't, they are disappointed, and they proclaim to the world that such-and-such a college is no good because their basketball team doesn't win. So it is only natural that when some collision of the sold in the such a college is no good because their basketball team doesn't win. So it is only natural that when some collision of the sold in th their basketball team doesn't win. So it is only natural that when some college takes the acceut off certain sports, refuses to charge admission to their games, and in general makes the athletic program truly benefit, the athlete and not the spectator, that these persons should resent it deeply and think the college officials crazy. Well, all this writer can say is, "Keep up the good work Hopkins. We're all schind you."

Three of last year's champions have been entered in the meet—Ed Lauterbach of Hopkins, 121 pound champion, Ted Mattern of Hopkins, 175 pound champion, and George Lourelli of Delaware, 155 pound champion. Lourelli may not be able to wrestle because of a leg injury which also kept him out of last week's match with Hopkins.

Coach Dick Hoover announced the following entries from Hopkins: 121 lb—Ed Lauterbach; 128 lb—Ed Beck; 136 lb—George Kachadourian; 145 lb—John Darr; 155 lb—Joe Schapiro; 165 lb—Mort Disney; 175 lb—Ted Mattern; Unlimited—Bob Rosenthal.

Last Saturday, Hopkins won its second meet in five starts, defeating Delaware, 21-13.

Skate For Pleasure & Healthy Exercise peace; and our goal, remember, in true and lasting peace. In order to

work closer toward this goal, we must have ideas, good ideas formulated by well-trained minds. The bayonet may be used to enforce ideas: but if the goal is to be at all approximated, the ideas must stick much longer than does the bayonet. Therefore, we again conclude, as we did in the editorial, that militarism nly an expedient, vital though it

may be.

As we have said, Pvt Taylor's comments as to the relative merits of collegiate and military training seem based on the very false hypothesis that army life is more 'real' than college life. It must be recognized that both are exceptional types of existence; their relative merits, then, must be judged by what they offer the individual.

It is true that the contacts one

It is true that the contacts one makes in the army are valuable, but makes in the army are valuable, but just as any new contact or experience with any type of person or situation is valuable; and an educated person should be able to extract this valuable instruction from ordinary experience more readily than can a person whose mind is comparatively undeveloped. It is true that in college one acquires a great deal of excessive bagrage. But we venture to cessive baggage, but we venture to conjecture that Pvt Taylor is acconjecture that Pvt Taylor is acquiring a good deal of mental superfulties right now that may not be even ornamental. It is true that the sensibilities of the men in the ranks are essentially just like those of college men; but here a distinction can be made in that the college should train a man to express these sensibilities while the army does not. The argument about vocabulary can be shown as ridiculous by carrying The argument about vocabulary can be shown as ridiculous by carrying it to a ridiculous extreme: a man should never have perfected a language because it has hindered his communication of ideas with dogs and cats. A college man should be able to adjust his vocabulary to whatever his needs of it are.

In accordance with our sonclusion that war is only an expedient to attain peace, then, we here conclude that the value of a college education is greater than that of army training because the college trains for peace as well as war, while the army trains only for war.—The Editor.
