Miss Garrett's Reception.—The Women's Medical School of the Johns Hopkins University at Baltimore received the approving seal not only of fashion, but of high intellectual circles on the evening of November 14. Miss Garrett was assisted in receiving by Mrs. Harrison, the wife of President Harrison and president of the Washington committee of ladies, who are coöperating with Miss Garrett in raising a fund of five hundred thousand dollars to endow the school. Cardinal Gibbons was present, accompanied by Vicar-General McColgan and the Rev Mr. Lee. The list of guests included, besides Baltimoreans, distinguished men and women from New York, Washington, Philadelphia, Boston, Salem and Cambridge.

IN HONOR OF MRS. HARRISON.

RECEPTIONS IN CONNECTION WITH THE
JOHNS HOPKINS CEREMONIES.

BALTIMORE, Md., Nov. 14.—Mrs. Benjamin Harrison has been greatly honored to-day. Two receptions were given to her as the President of the committee of ladies of the various cities to raise money for the great medical school to be established in connection with the Johns Hopkins University.

The first reception was at the Johns Hopkins Hospital this afternoon. More than 200 guests were present, including, besides Mrs. Harrison and her hostess, Mrs. Findlay, the wife of ex-Congressman Findlay, the following: Dr. Alice Bennett, Norristown, Penn.; Mrs. Edgworth Bird, Dr. Blackwell, New-York; Mrs. Andrew A. Blair, Philadelphia; Miss Frances Clarke, Philadelphia; Dr. Cushner, New-York; Mrs. Samuel Dickenson, Philadelphia; Dr. Furness, Mr. and Mrs. R. Gilder, Mr. and Mrs. E. L. Godkin, Dr. Alice Hall, Miss Anna Hallowell, Philadelphia; Mrs. Hallowell, Philadelphia; Mrs. Caroline Henry, Washington; Miss Lillian Horsford, Cambridge, Mass.; Mrs. J. Dundas Lippincott and Mrs. John Lucas, Philadelphia; Mrs. Edward M. Paxson, Philadelphia; Hattie M. Stokes, Germantown, Penn.; Miss Julia Strong, Washington; Miss N. Carey Thomas, Bryn Mawr, Penn.; Mrs. Charles Whiting, Springfield, Mass.; Edith Wright, Germantown, Penn., and Mrs. A. D. Williams, Utica.

Dr. Hurd delivered a short address, in which he said that the project for the great medical school was one of the objects of the university, and that, in fact, much of the work which the university has so well done during the past fourteen years has been preparatory to the ultimate establishment of the medical school, and has constantly had this school in view.

A luncheon was served and the hospital was inspected. Letters of regret were received from many notables, including Mr. and Miss Aldis of New-York.

She then threw open her M.
in honor of Miss
ations.

November 15 *1890.*

BALTIMORE, Md., Nov. 14.—The scheme to raise \$500,000 to guarantee the opening of the Johns Hopkins medical school to women received a great impetus in this city today and tonight. Over 200 women, representative of the highest intellectual and charitable circles from all over the country, who are interested in the matter, met at the Johns Hopkins Hospital this afternoon. Delegations came from Washington, New York, Boston and other cities.

The different committees have already raised over \$100,000 and the indications are that the balance of the half million dollars will soon be subscribed.

Miss Mary Garrett, who is one of the leading spirits in the Women's Medical School fund, this evening gave a reception, at which the women interested in the movement were present in large numbers. Mrs. Harrison and a number of other notable women assisted Miss Garrett in receiving the 1500 guests.

anthropic mind in these days, and it was a furtherance of this idea which brought together a most notable gathering of women yesterday at the Johns Hopkins University.

The occasion was a reception tendered by the trustees of the university and hospital to the ladies comprising the committees in the various cities who are interested in the opening of a post-graduate medical course for women in the institution. The event was made especially interesting by the presence of Mrs. Benjamin Harrison, who is the chairman of the Washington committee and who is taking

MRS. HARRISON.

an active interest in the movement. The ladies came at the invitation of the trustees and staff of the hospital, who are warmly interested in the advancement and the opening of a school for the higher medical education of women. The doors of the building were thrown open, and wards and experiment rooms were inspected by the visitors.

The staff of physicians had made great preparations, and the beauty of the magnificent architecture of the institution was greatly enhanced by profuse decorations. In the centre of the administration building, directly opposite the main entrance, a large circle of palms and waving exotics was placed, while the end of the east corridor was one bank of growing plants and cut flowers.

DISTINGUISHED LADY VISITORS.

Promptly at 12.30 o'clock carriages containing the Baltimore committee arrived with the secretary, Miss Mary Garrett, and were met by the superintendent of the hospital, Dr. Henry M. Hurd, and the members of the resident and visiting staff. A few minutes later there was a cheer from the crowd outside, and the carriage containing Mrs. Harrison drove up to the entrance. She was accompanied by Mrs. Henry Winter Davis, the chairman of the Baltimore committee, and Mrs. John V. L. Findlay, Mrs. Harrison's cousin, with whom she has been staying. The party was received by the members of the committee and escorted to the end of the north corridor of the administration building, where an informal reception was held. Mrs. Harrison was assisted in receiving the guests by Mrs. Willie Reed, who presented the ladies to her. Mrs. Harrison was attired in a dress of dark henrietta cloth, with sealskin sacque, and wore a small felt bonnet with velvet and gilt trimmings. She shook hands with the visitors and had a pleasant word in return for every remark.

THE WASHINGTONIANS.

While this was in progress the Washington party arrived and were escorted into the building. The party came over in the Pullman car Delaware, attached to the 45-minute train of the Baltimore and Ohio Railroad, and were met at Camden Station by Mr. A. B. Crane. They were then conveyed to the building in carriages. The train bearing the Philadelphia contingent was somewhat delayed, but they arrived in time for the reception. They were met at Union Station by Mr. Stanley Hutchins and were driven to the institution.

cal school in the Johns Hopkins University. Such a school is not to be a medical college in the general acceptance of the term—that is, a school where special facilities are provided for technical instruction alone in the practical branches of medicine, but rather a school where medical study shall be pursued with as much breadth and thoroughness as any one of the courses which leads up to degrees in Johns Hopkins University. To constitute this university medical course three requisites are at once apparent: A thorough-going, well-ordered under-graduate school, to lay a broad foundation of general and scientific training for subsequent medical study—in short, a preliminary medical course, such as now exists and has existed for several years at the university, and which, I am glad to say, is to be found at one of the colleges for women at least, that is, Bryn Mawr.

"A school of applied medicine for instruction in the science and art of medicine pure and simple, for the study of anatomy, medicine, surgery, gynecology, obstetrics, pharmacology, morbid anatomy, morbid histology, &c. Here lectures, recitations, demonstrations and laboratory instruction should be combined.

"A hospital for practical medical teaching at the bedside, in the operating room and among the sick poor in the dispensaries, and facilities for advanced or post-graduate work in the various medical and surgical specialties.

"Of these three requisites to the school which we hope to see established, and for which the students of America are waiting, the first and third now exist, and the connecting link—the school of applied medicine—only needs to be supplied. The university and the hospital already furnish facilities for the broadest and best training in their respective spheres of instruction. In fact, I may say that much of the work which the university has so well done during the past 14 years has been preparatory to the ultimate establishment of the medical school, and has constantly had this school in view.

"The step to systematic medical instruction need not be a long one. Already students are crowding upon us. It is daily more evident that all future, permanent work in medicine or surgery must be based upon experimental and laboratory work. The university and hospital are doing all that can be done with present facilities to promote the acquisition and wide diffusion of medical knowledge. Those who help to endow it can feel assured that it will enter at once upon a vigorous development. The university laboratories are in active operation, the hospital is fully equipped, a square of ground for the medical school proper has been purchased, plans for the building are maturing, and courses of medical instruction are already outlined. Can the same endowment anywhere else in the world bring a richer or speedier return?"

INSPECTING THE HOSPITAL.

After the speech-making the party arose from the table and began a tour of inspection through the hospital buildings. Every ward, office and library was visited, and there was not a nook or corner inside the walls of the immense building that did not echo again and again with the tramp of the visitors. Mrs. Harrison walked through the buildings with Dr. Hurd, and seemed greatly impressed with the size of the hospital. The patients in the wards were not forgotten, and as the "first lady of the land" passed through the lines of neatly-covered cots it created quite a stir when it was whispered around "She's the President's wife."

 BALTIMORE, Nov. 14.—Mrs. President *its with*
 Harrison was tendered a brilliant reception *asonable*
 here-to-day by the Baltimore branch of the
 organization of ladies having in charge the
 raising of funds sufficient to guarantee the
 opening of the Johns Hopkins Medical
 School for Women. The trustees of the hos-
 pital, all desirous of seeing the fund raised,
 extended, as a courtesy, the hospital build-
 ing as a suitable place wherein to hold their
 reception, and a great number of invitations
 were sent out to the ladies interested in the
 work throughout the country. As a conse-
 quence there were assembled within the hos-
 pital walls to-day some of the best known
 ladies in the United States.

Among the first to arrive was Mrs. Presi-
 dent Harrison, accompanied by Mrs. John V.
 L. Friday. There were over 200 ladies
 present including the following from Phila-
 delphia: Mrs. Blake, Mrs. Andrew A.
 Blair, Mrs. W. Cabell Bruce, Miss Brooks,
 Mrs. T. Barton Brune, Mrs. T. L. Capman,

OF THE JOHNS HOPKINS UNIVERSITY
NOW AN ASSURED SUCCESS.

A Reception Given by Miss Mary Garrett to the Ladies and Gentlemen of the Country who Take an Interest in the Project—Philadelphians Present—More Subscriptions.

BALTIMORE, Nov. 14.—The women's medical school of the Johns Hopkins University is now an assured success. The "At Home" this evening by Miss Mary Garrett to the ladies and gentlemen of the country who take a deep interest in the success of the project was a grand affair.

Miss Garrett was assisted in giving a cordial welcome to the guests by Mrs. Harrison, the wife of President Harrison, and President of the Washington committee of the project.

Miss Garrett was assisted in giving a cordial welcome to the guests by Mrs. Harrison, the wife of President Harrison, and President of the Washington committee of the project. \$500,000 to endow the school. His Eminence Cardinal Gibbons was present in his scarlet robes. He was accompanied by the venerable Vicar General McColgan and Rev. Mr. Lee.

Mr. George W. Abell, Gen. Felix Agnus, Col. Cunningham, Mr. Beckhoffer, Mr. Brewer and Col. Ralus were the chief members of the press of Baltimore present. Nearly every citizen of Baltimore known to society responded to the invitation. Among those present from abroad were the following:

Miss Kittle, San Francisco; Miss Horsford, Cambridge, Mass.; Miss Griffith, San Francisco; Miss Wilson, Philadelphia; Miss Wright, Germantown; Miss Whiting, Bryn Mawr, Pa.; Miss Clara Barton, Washington; Dr. Murray, Washington; Mrs. Cornelius Stevenson, Philadelphia; Miss Vaux, Philadelphia; Mrs. George K. Crozer, Philadelphia; Mrs. Field, Boston; Mrs. Charles G. Whiting, Springfield, Mass.; Dr. Richard Derby, New York; Miss King, Salem, Mass.; H. D. Noyer, New York; Mrs. Edward M. Paxson, Philadelphia; Mr. and Mrs. Robert P. Porter, Washington; Mrs. E. Phillips, Washington; Dr. Blackwell, New York; Mrs. Mase Southworth, Philadelphia; Mrs. John Lucas, Philadelphia; Mrs. J. Dundas Lippincott, Philadelphia; Mr. and Mrs. Jacob Tome, Port Deposit, Md.; Mr. and Mrs. John B. Williams, Port Deposit, Md.; Mrs. Isaac H. Clothier, Wynnewood, Pa.; Dr. Frances E. White, Philadelphia; Miss Bertha Lewis, Philadelphia; Mrs. W. F. Jenks, Philadelphia; Mr. Frank B. Mayer, Annapolis, Md.; Mrs. J. Wirt Randall, Annapolis, Md.; Miss Pendleton, Philadelphia.

During the day the Baltimore Committee of ladies gave a reception in honor of the visiting ladies, and it proved to be a delightful affair. It was announced that many additional subscriptions have been received by the Committee of the Woman's Fund since the amount of \$100,000 was secured and offered to the Trustees of the Johns Hopkins Hospital.

The first to subscribe was Mrs. Dr. Hurd, of Baltimore, which was given as an earnest of her hope and wish that it should be very largely added to, and Mrs. D. C. Gilman also subscribed at the same time. Since those subscriptions others have been received, both in large and small amounts and from in and out of town, and they are coming in rapidly.

Mrs. Carey has subscribed \$500. Miss Grafenwald, of the Labor Bureau, who has just returned from Europe, has consented to serve on the committee, and was the next subscriber. From the little town of Gardiner, Maine, a subscription has been received in small amounts from 200 contributors. This contribution to the fund is especially gratifying to the ladies, as showing the popular interest that the movement has aroused.

WHY THE MONEY IS NEEDED.
Provision for a medical school in connection with the university was made in the will of Johns Hopkins, but because of the suspension of dividends by the Baltimore and Ohio Railroad and other losses in investments no funds from his estate are now on hand to carry out the idea. The course is to last five years, the first three to correspond in a measure to the baccalaureate studies at the university, and the other two to the doctor's course. In the three years' course a broad foundation is to be laid for advanced medical study and research, and thereafter it is supposed students will be prepared to digest thoroughly the finishing branches of instruction. It is not yet settled whether or not women will be instructed in the same classes as men, but one of those interested in the movement said that probably such would be the case as a general rule. Where there is a plain reason for teaching the sexes separately in theory or practice it is thought the coeducation idea will not be pushed to extremes. The longest medical course now conducted consists of four years, and the specified time for graduation in most schools is three. The proposed institution is not expected to interfere with any existing colleges in Baltimore, but rather to afford needed facilities for advanced work.

November 15 1890.

A GREAT UNDERTAKING.

No movement started for years has so generally enlisted the sympathy of women throughout the nation as this plan for the medical education of the sex. The need of a superior school which shall bear the same relation to existing institutions as the Johns Hopkins University has to colleges is felt strongly by members of both sexes, and it is believed that \$500,000 will be sufficient to begin it. To the task of raising that sum the ladies, flushed with the success they have already won, have bent their efforts since the trustees have agreed to give both sexes equal privileges in the school when opened in return for the recent gift of \$100,000 from Miss Garrett and other contributors. Some ladies who have entered into the project with heart and soul have recently doubled their subscriptions.

RECEPTION TO MRS. HARRISON.

The Ladies of Baltimore Pay Due Honor to Her—The Female Medical College Society Meeting. Special to the Commercial Gazette.

BALTIMORE, MD., Nov. 14.—Quite a goodly number of distinguished ladies from various parts of the country gathered here today at the invitation of the trustees of the Johns Hopkins University and the hospital. The occasion was a reception to Mrs. Benjamin Harrison, who is the President of the associated committees, which are engaged in raising an endowment of half a million to establish at the Johns Hopkins University a medical school of a high standard for women. The reception was held at the hospital, Miss Mary Garrett assisting Mrs. Harrison in receiving the guests. Among the ladies present were Dr. Alice Bennett, of Norristown, Pa.; Mrs. Andrew A. Blair, Mrs. Blake, Miss Frances Clarke, Mrs. Hallowell, Miss Anna Hallowell, Mrs. J. Dundas Lippincott, Mrs. John Lucas, Miss Camilla Norris, Mrs. William F. Parks, Mrs. Edward M. Paxson, Mary M. Vaux, of Philadelphia, and about 200 others from va-

Mrs. Harrison at Baltimore.

BALTIMORE, Nov. 15.—Mrs. Harrison, wife of the president, arrived here Thursday night, the guest of her cousin, Mrs. John V. L. Findlay. Yesterday afternoon she attended a reception at the Johns Hopkins hospital, tendered by the Baltimore committee of the Woman's Hospital Fund association to several hundred invited guests. In the evening she assisted in receiving 1,500 guests at the reception given by Miss Mary Garrett at her residence on Monument street. The purpose of Mrs. Harrison's visit here was to co operate in the movement to raise a fund to guarantee the opening of the Johns Hopkins medical school to women. Prospects are bright for the fund.

NEW YORK PRESS.

Mrs. Harrison at Johns Hopkins.

Special to The Press.

BALTIMORE, Nov. 14.—One of the most notable gatherings of women ever held in Baltimore was that which met at the Johns Hopkins Hospital at the reception tendered by the trustees to the ladies on the several committees who have been instrumental in raising \$100,000 with which to endow a school of medicine, on condition that women be admitted upon the same terms as male students. Mrs. Benjamin Harrison, as president of the Washington committee, was the principal figure in the assemblage. The ladies of the different committees, the trustees and invited guests were introduced to her and crowded around to press her hand. Luncheon was afterward served, at which speeches were made. Before leaving Mrs. Harrison took occasion to compliment Miss Mary Garrett on the success of her school at Bryn Mawr, which Superintendent Hurd said was the only one with a sufficiently high standard to enable graduates to enter the proposed Hopkins medical school. In the evening Mrs. Harrison attended the reception given by Miss Mary Garrett, which was the first entertainment any member of the Garrett family has given in years. Mrs. Harrison will return to Washington this morning.

Mrs. Harrison Was There.

BALTIMORE, Nov. 15.—The scheme to raise \$500,000 to guarantee the opening of the Johns Hopkins Medical school to women received a great impetus in this city last night. Over 200 ladies representative of the highest intellectual and charitable circles from all over the country, who are interested in the matter, met at the Johns Hopkins hospital. The different committees have already raised over \$100,000 in Baltimore, Washington, New York, Philadelphia and other cities, and the indications are the balance of the half million dollar fund will soon be subscribed. Miss Mary Garrett, who is one of the leading spirits in the women's medical school fund, last evening gave a reception that proved a great social event, and at which the ladies interested in the movement were present in large numbers. Mrs. Harrison and a number of other notable ladies assisted Miss Garrett in receiving the 1,500 guests.

FOR A WOMEN'S MEDICAL SCHOOL.

A MEETING OF MANY WELL-KNOWN WOMEN AT
 THE NEW JOHNS HOPKINS HOSPITAL
 —MISS GARRETT'S RECEPTION.

Baltimore, Nov. 14 (Special).—The movement started by Miss Mary Garrett, of this city, and heartily favored by Mrs. Harrison and other prominent Washington women, to establish a medical school for women in connection with the Johns Hopkins University, received renewed impetus to-day at a gathering of notable women from all parts of the country in the new Johns Hopkins Hospital. Mrs. Harrison, who is the president of the Washington branch of the organization of women having in charge the raising of the fund for the new institution, came to Baltimore last night as the guest of Mrs. John V. L. Findlay, whose husband is a cousin of President Harrison. She attended the theatre last night, and to-day was the guest of the Baltimore branch of the Medical School organization. Extensive negotiations had been made at the hospital for

SCENES OF SPLENDOR.

MISS MARY GARRETT GIVES A BRILLIANT RECEPTION.

Her Drawing-Rooms Crowded With Visitors—Mrs. Harrison and the Hostess the Centre of Attraction—Cardinal Gibbons Among the Visitors—The Women's Fund.

For the first time in years the doors of Miss Mary Garrett's handsome residence, on the southwest corner of Monument and Cathedral streets, stood invitingly open, the interior was brilliantly lighted and many callers in evening toilettes elbowed each other in the richly-appointed parlors.

The reception was in honor of the many prominent people from at home and abroad who visited the Johns Hopkins Hospital yesterday. Though the announcement had been made that the event was not a society affair all society was there.

Mrs. C. M. Morris, Rev. J. W. McIlvain, Mr. and Mrs. J. P. Elliott, Mr. Frederick Colston, Mr. Uhler, Mr. and Mrs. G. N. Hutton, Dr. Abbott, Miss Hester C. Dorsey, Mr. and Mrs. Henry Lee, Miss Metcalf, Miss Bickford, Mrs. and Miss Blake, Mr. and Mrs. Griffin, Mr. Wyatt Randall, Miss R. A. Binner, Mr. and Mrs. Joseph Whyte, Mr. and Mrs. George Patterson, Mr. and Mrs. Harry Wood, John Richardson and Professor Newell.

The out of town guests were: Mrs. Benjamin Harrison, Washington; Miss Agnes Turner, Newark, N. J.; Miss Clara Barton, Dr. Murray, Mr. and Mrs. Robert P. Porter, Mrs. E. Phillips, of Washington, D. C.; George de B. Keim, Miss Wilson, Mrs. Cornelius Stevenson, Miss Vaux, Mrs. George K. Crozier, Mrs. Edward M. Paxson, Mrs. M. Southworth, Mrs. John Lucas, Mrs. J. Dundas, Lippincott, Dr. Francis E. White, Miss Bertha Lewis, Mrs. W. F. Jenks, Miss Pendleton, of Philadelphia; Dr. Richard Derby, H. D. Noyes, Dr. Emily Blackwell, of New York; Mrs. Field, Miss Horsford, Boston; Miss Wright, Germantown, Pa.; Miss Whiting, Bryn Mawr, Pa.; Mrs. Charles C. Whiting, Springfield, Mass.; Miss King, Salem, Mass.; Mr. and Mrs. Jacob Tome, Port Deposit, Md.; Mr. and Mrs. John B. Williams, Mrs. Isaac H. Clothier, Wynnewood, Pa.; Mr. Frank B. Mayer, Annapolis, Md.; Mrs. J. Wirt Randall, Annapolis, Md.; Miss Kittie and Miss Giffith, of San Francisco, Cal.

Among the conspicuous visitors were Cardinal Gibbons and Monsignor McCoigan, Ex-Mayors Hodges and Latrobe.
